THE MODERN NOMAD

G&T COMMUNITY VISION GUIDE 2024/25

COMMUNITY SURVEY RESULTS
APPENDIX A - FULL RESULTS

REV A - 03/25 - DW

SUMMARY

DATA COLLECTION & COLLATION NOTES

3 Points/ modes of data collection - seen in appendix A1, A2 &A3

Appendix A1 - Online Survey (Version 01)

Appendix A2 - In person Community Workshop in York (Version 01)

Appendix A3 - Online Survey (Version 02 - refined/ tweaked Survey 01 based on user feedback in Community workshop)

OTHER NOTES

Individual surveys can be seen in community survey responses document

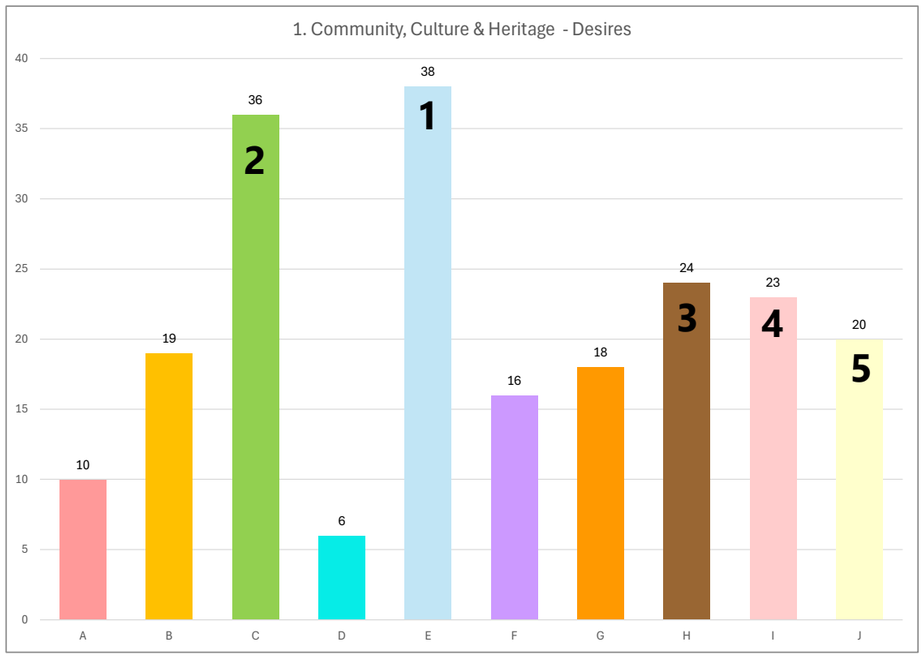
Not all surveys completed

Some surveys overfilled

The community vision guide is for illustrative purposes only. No responsibility can be accepted for the application of the hypothetical visualisations without due process and consultation with the appropriate professionals

OVERALL SURVEY RESULTS

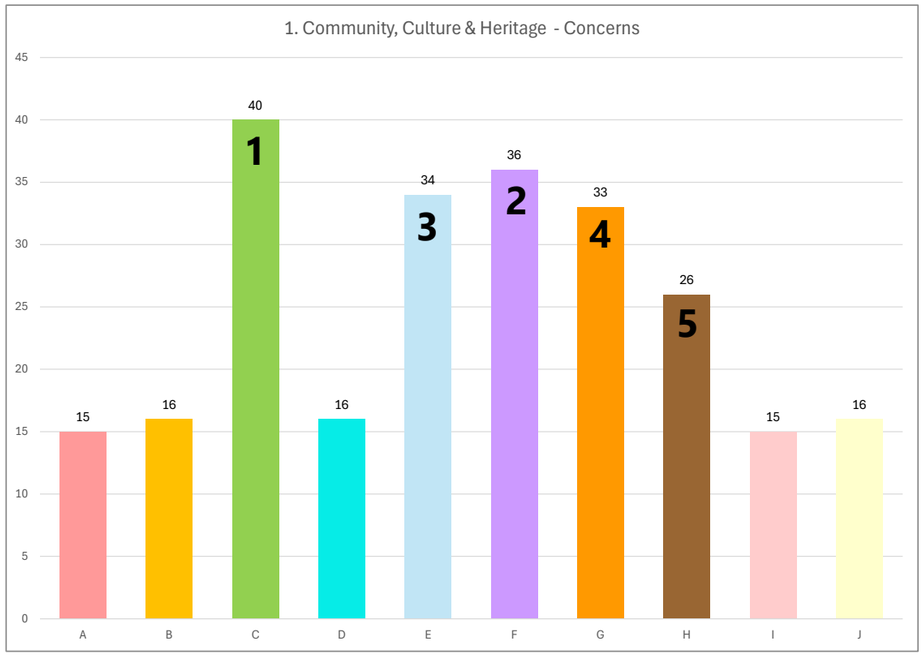
SECTION 1:COMMUNITY, CULTURE & HERITAGE - DESIRES



- Shared communal space (Social Heart)
- Multi-use space for community and local activities – i.e. Shared Playgrounds & green areas
- Designing places to live that have included me in the process (Inclusive Design & Community engagement)
- Mixed sites - Living with Gypsies, Roma, Travellers and others (Diversity)
- Multi-generational living (living with Grandparents, parents, kids, grand children)
- Better place making – i.e. sites being near community spaces and non-residential activities
- Live & places to work on site (Self Employment and space to work separate from living)
- Teaching space – i.e. different types of education – home schooling/ distance learning, community storytelling, apprenticeships etc.
- Accurate needs -based assessments (by local authority for Gypsy & Travellers for selected sites)
- Being able to chose between a house, site or combined
- Other/ see comments section in individual surveys

OVERALL SURVEY RESULTS

SECTION 1:COMMUNITY, CULTURE & HERITAGE - CONCERNS



Loss of community through integration (shared amenities with locals)

Not being able to travel or have access to sites if I live in a house

Forced to live in unsuitable places

Less communal space on sites because it's neglected (for example - more private amenity spaces needed)

Poor quality/ Amenity buildings that don't suit our needs (Outbuildings on site)

Poor management and maintenance (sites getting run down quickly)

Lack of space for family or friends to stay

Homelessness because of not enough places to live

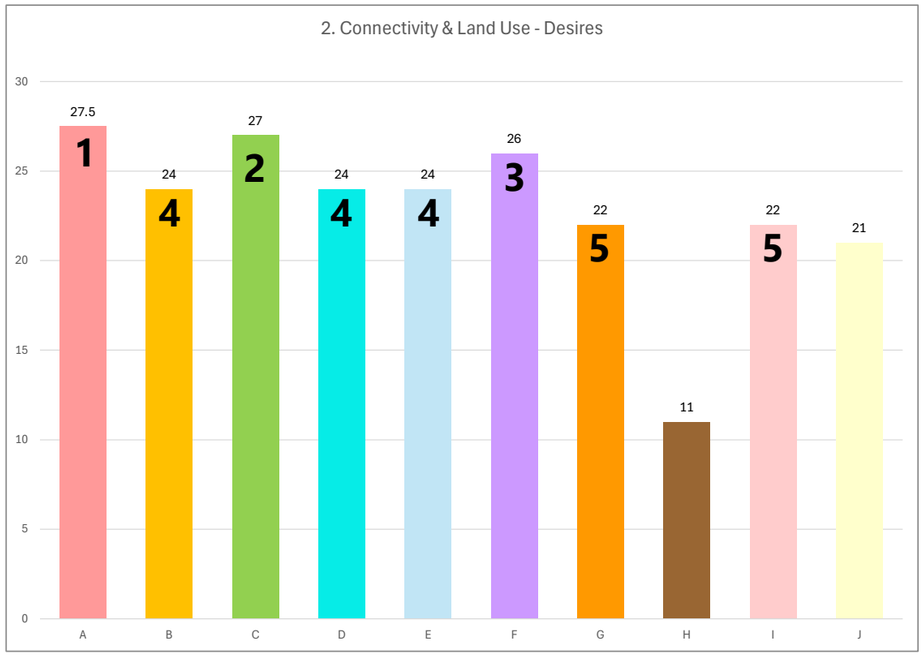
Crime on site and or in local area

Lack of Gypsy & Traveller character and culture

Other/ see comments section in individual surveys

OVERALL SURVEY RESULTS

SECTION 2:CONNECTIVITY & LAND USE- DESIRES



More available sites with better connections – in towns, cities, countryside with better public transportation links

Better access to health and education (health & wellbeing)

Sites with nicer surroundings – i.e. landscape, nice street, not next to scrap/ tip yards

Site access – i.e. more than one point of entry, more open boundary conditions using trees, better access for emergency

Having a right to buy (ownership)

Plots and sites that can grow based on need (allowing families to grow and stay, adaptable, community driven, reusing/re-planning existing sites, growing temporary sites to provide short term places to live)

Different Options for G&T accommodation in each local authority – Group Housing, serviced sites, transit sites, private sites, haltingsites

Sites with plots and houses (i.e. Sites that combine social housing and/ or caravan pitches that double up as holiday parks when not used)

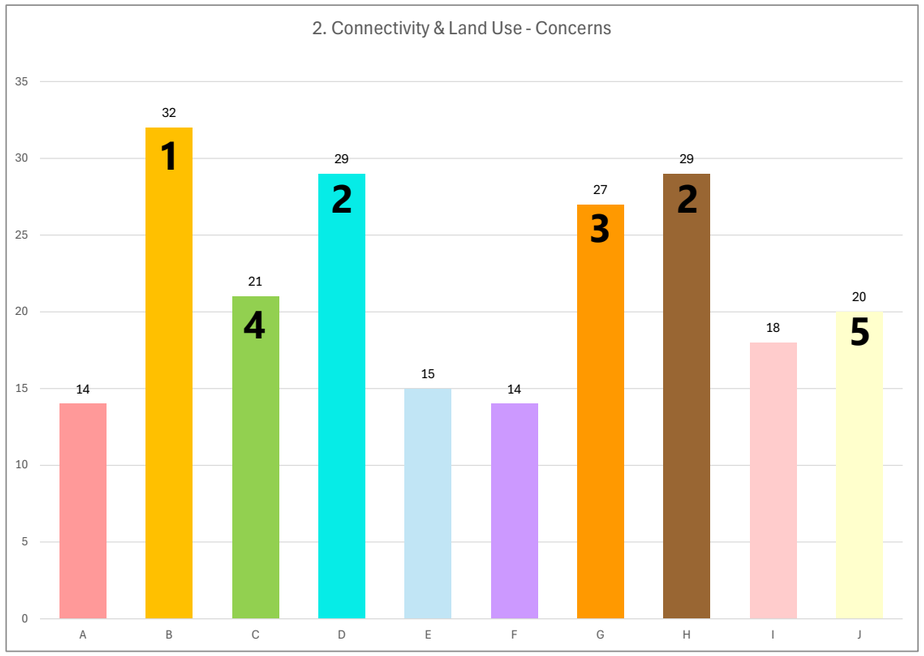
More small-scale sites – easier maintenance and site availability in different areas

Gypsy & Traveller designed sites should be included as a part of social housing in large scale developments

Other/ see comments section in individual surveys

OVERALL SURVEY RESULTS

SECTION 2:CONNECTIVITY & LAND USE - CONCERNS



Sites are hidden to outside world (Visibility in local area)

Environmental racism & surrounding Land Use – i.e. Recycling and waste facilities, under motorways etc.

Segregating site boundaries - i.e. single entrance with high perimeter concrete walls that fence in sites

Poor access to public transport and nearby amenities - shops, sports clubs, restaurants etc

Poor access to Schools & Nurseries to improve employment opportunities

Private ownership and not enough public owned sites

Overcrowding, oversized and unauthorised sites

Poor maintenance and responsibility of site management from local authority

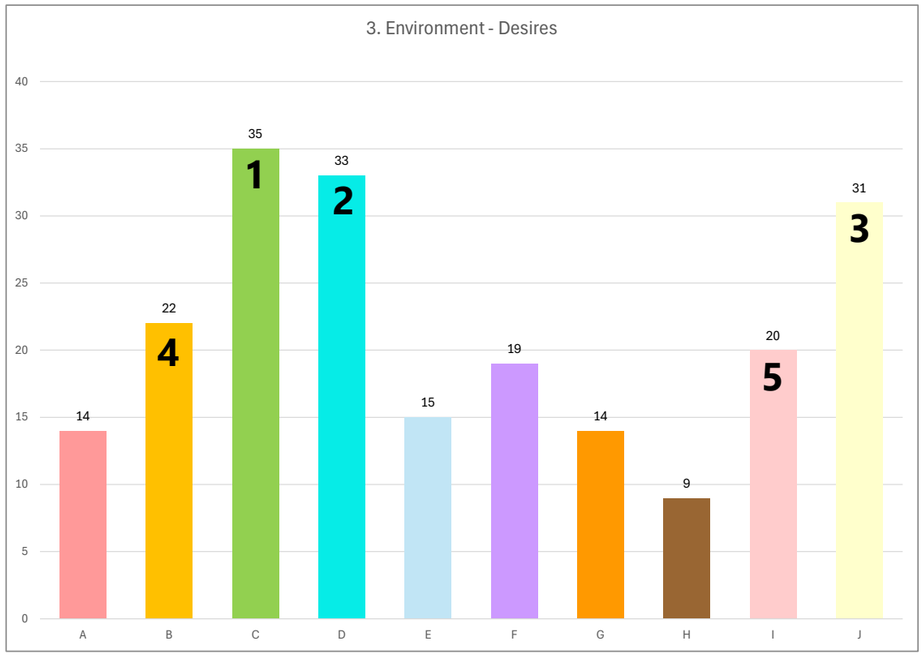
Increased living costs & Affordable accommodation

Lack of planning engagement, opportunities and accountability from local authority

Other/ see comments section in individual surveys

OVERALL SURVEY RESULTS

SECTION 3:ENVIRONMENT - DESIRES



Sites that improve relationship with neighbours (reflecting local character and respect G&T culture)

Good quality green spaces & Landscaping (improving biodi-versity & wildlife)

Update and improve existing sites

Better plot layouts & caravan siting (More open space, landscape between plots, site shape to prevent overlooking, better plots views, more light and consideration of lifestyle)

More shared communal space (Playgrounds, area for sport and other uses)

Better lighting and visibility at night

Productive landscape (to grow food & space for wildlife/ animals on site i.e. Horses)

Car free zones & traffic calming measures around site (improving air quality)

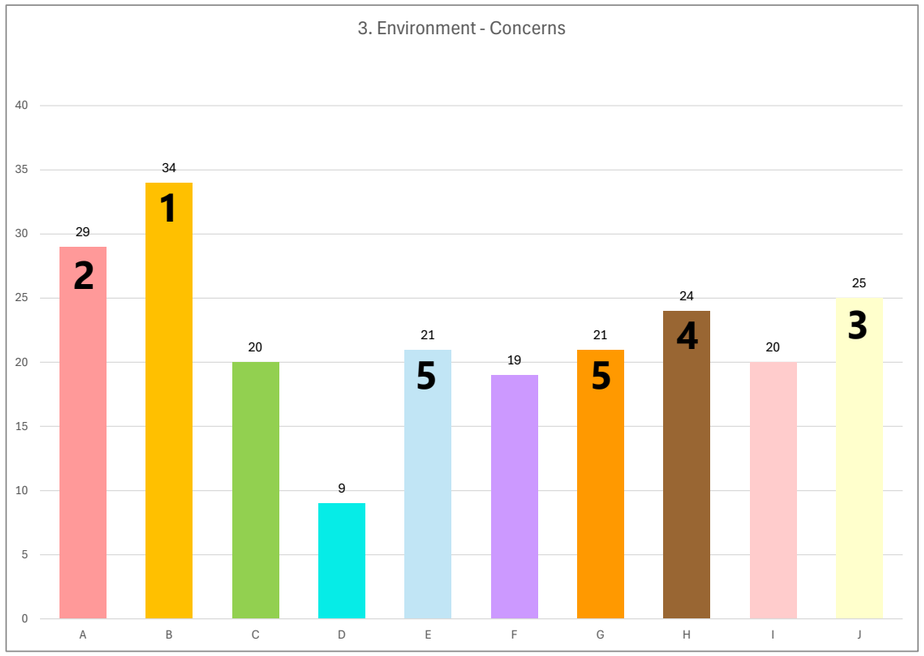
Places to live that use good quality materials & Green technologies that will help reduce my energy costs (Sustainability – using solar

Better utilities on sites and storage (waste, water, electricity etc)

Other/ see comments section in individual surveys

OVERALL SURVEY RESULTS

SECTION 3: ENVIRONMENT - CONCERNS



Direct overlooking of plots and not enough space between neighbours

Fire safety and risk on site because of overcrowding

Sites that experience heavy flooding or in places that are in flood planes

Not enough landscaping and too much car parking on site

Poor site security and safety for children on site

Noise and isolation because of bad site locations

Health and Safety on site – impact of neighbouring site uses (pollution)

Poorly constructed plots and buildings on site that don't last

Too many caravans on site – Site density & over development

Not enough space for my family to grow

Other/ see comments section in individual surveys

COMMUNITY RESPONSE

COMMUNITY, CULTURE & HERITAGE

TOP 5 DESIRES:

1. **Multi-generational living** - (living with Grandparents, parents, kids,grandchildren)
2. **Designing places to live that have included me in the process** - (Inclusive Design & Community engagement)
3. **Teaching space** – i.e. different types of education – home schooling/ distance learning, community storytelling, apprenticeships etc.
4. **Accurate needs based assessments** - (by local authority for Gypsy & Travellers for selected sites)
5. **Being able to chose between a house, site or combined**

TOP 5 CONCERNS:

1. **Forced to live in unsuitable places**
2. **Poor management and maintenance** - (sites getting run down quickly)
3. **Poor quality/ Amenity buildings that don't suit our needs** - (Outbuildings on site)
4. **Lack of space for family or friends to stay**
5. **Homelessness because of not enough places to live**

COMMUNITY RESPONSE

CONNECTIVITY & LAND USE

TOP 5 DESIRES:

1. **More available sites with better connections** – in towns, cities, countryside with better public transportation links
2. **Sites with nicer surroundings** – i.e. landscape, nice street, not next to scrap/ tip yards
3. **Plots and sites that can grow based on need**

(allowing families to grow and stay, adaptable, community driven, reusing/re-planning existing sites, growing temporary sites to provide short term places to live)

4a. **Better access to health and education (health & well-being)**

4b. **Site access** – i.e. more than one point of entry, more open boundary conditions using trees, better access for emergency vehicles etc.

4c. **Having a right to buy (ownership)**

5a. **More small scale sites** - easier maintenance and site availability in different areas

5b. **Different Options for G & T Accommodation in each local authority**

- Group housing, serviced sites, transit sites, private sites, halting sites

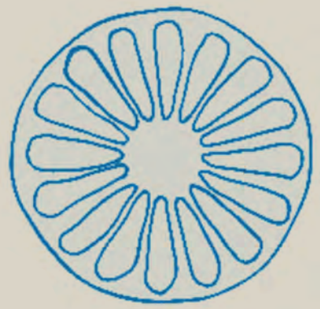
TOP 5 CONCERNS:

1. **Environmental racism & surrounding Land Use –** i.e. Recycling and waste facilities, under motorways etc.

2a. **Poor access to public transport and nearby amenities** - shops, sports clubs, restaurants etc

2b. **Poor maintenance and responsibility of site management from local authority**

3. **Overcrowding, oversized and unauthorised sites**
4. **Segregating site boundaries** - i.e. single entrance with high perimeter concrete walls that fence in sites
5. **Lack of planning engagement, opportunities and accountability from Local Authority**



COMMUNITY RESPONSE

ENVIRONMENT

TOP 5 DESIRES:

1. **Update and improve existing sites**
2. **Better plot layouts & caravan siting**

(More open space, landscape between plots, site shape to prevent overlooking, better plots views, more light and consideration of lifestyle)

3. **Better utilities on sites and storage (waste, water, electricity etc)**
4. **Good quality green spaces & Landscaping (improving biodiversity & wildlife)**
5. **Places to live that use good quality materials & Green technologies that will help reduce my energy costs**

(Sustainability – using solar panels, air source heat pumps, high quality insulation)

TOP 5 CONCERNS:

1. **Fire safety and risk on site because of overcrowding**
2. **Direct overlooking of plots and not enough space between neighbours**
3. **Not enough space for my family to grow**
4. **Poorly constructed plots and buildings on site that don't last**

5a. **Poor site security and safety for children on site**

5. **Health and Safety on site**

– impact of neighbouring site uses (pollution)

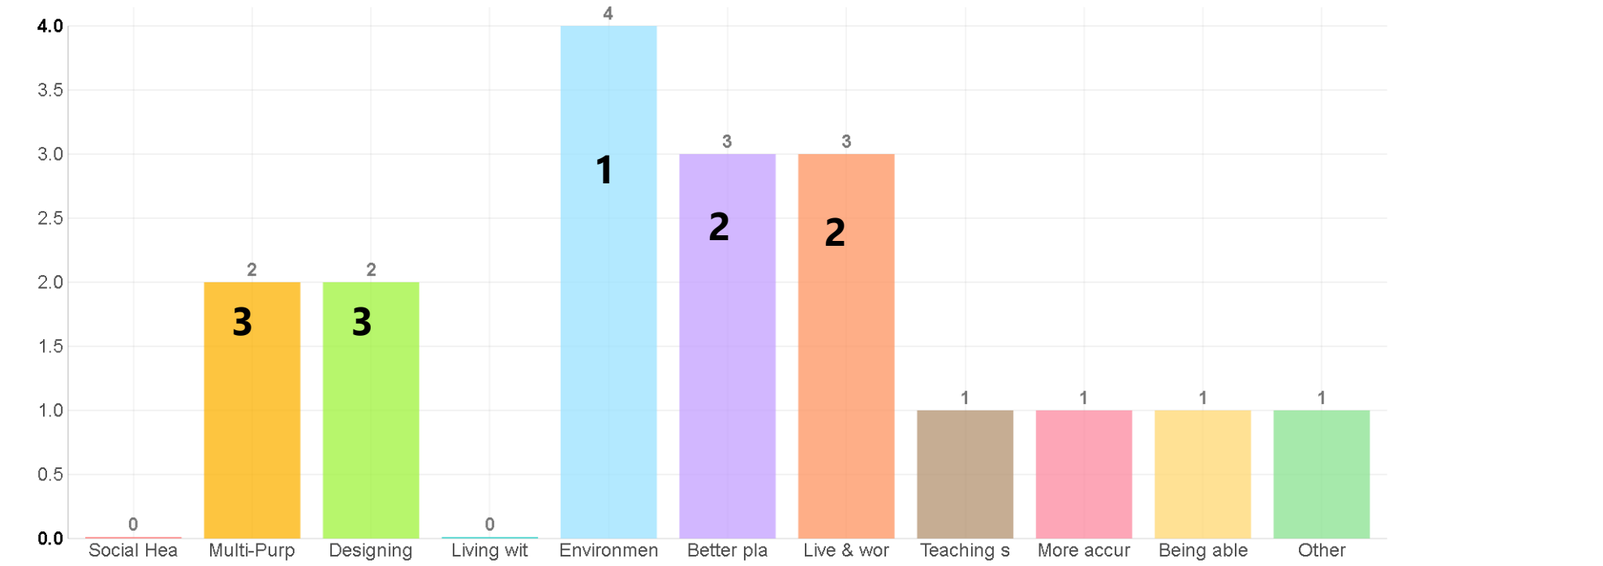
THE MODERN NOMAD

G&T COMMUNITY VISION GUIDE 2024/25

INDIVIDUAL SURVEYS DATA (1-3)

Appendix A1

SURVEY 1 - 1A DESIRES



Shared Heart - Communal Space

Multi-Purpose space for community and local activities – i.e. Shared Playgrounds & green areas

Designing places to live that have included me in the process (Inclusive Design & Community engagement)

Living with Gypsies, Roma, Travellers and others (Diversity)

Environments that encourage multi-generational living (living with grandparents, kids, grand children)

Better place making – i.e. sites being near community spaces and non-residential activities

Live & workspaces on site (Self-sufficiency & employment generating activities on site)

Teaching spaces for GRT – i.e. alternative education models – home schooling/ distance learning, community storytelling, apprenticeship's etc.

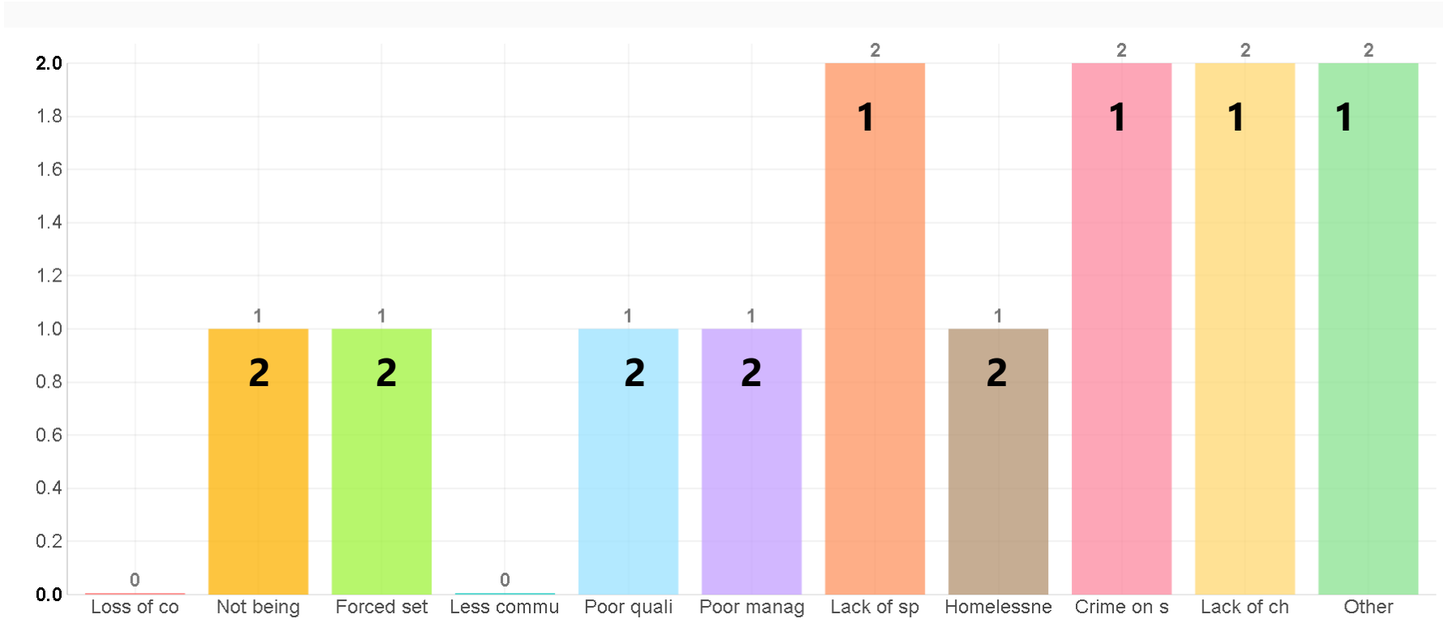
More accurate needs-based assessments by local authority for Gypsy, Roma, Travellers for selected sites

Being able to choose between a house or a site

Other/ see comments section in individual surveys

Appendix A1

SURVEY 1 - 1A CONCERNS



Loss of community through integration/ shared amenities with locals

Not being able to travel or have access to sites if I live in a house

Forced settlement in places that don't reflect how I want to live

Less communal space on sites because it's under used or neglected (More private amenity spaces needed)

Poor quality and unsuitable Amenity buildings that don't suit GT needs (Outbuildings on site)

Poor management and life cycle of sites (sites getting run down quickly)

Lack of space for family or friends to stay

Homelessness due to lack of accommodation

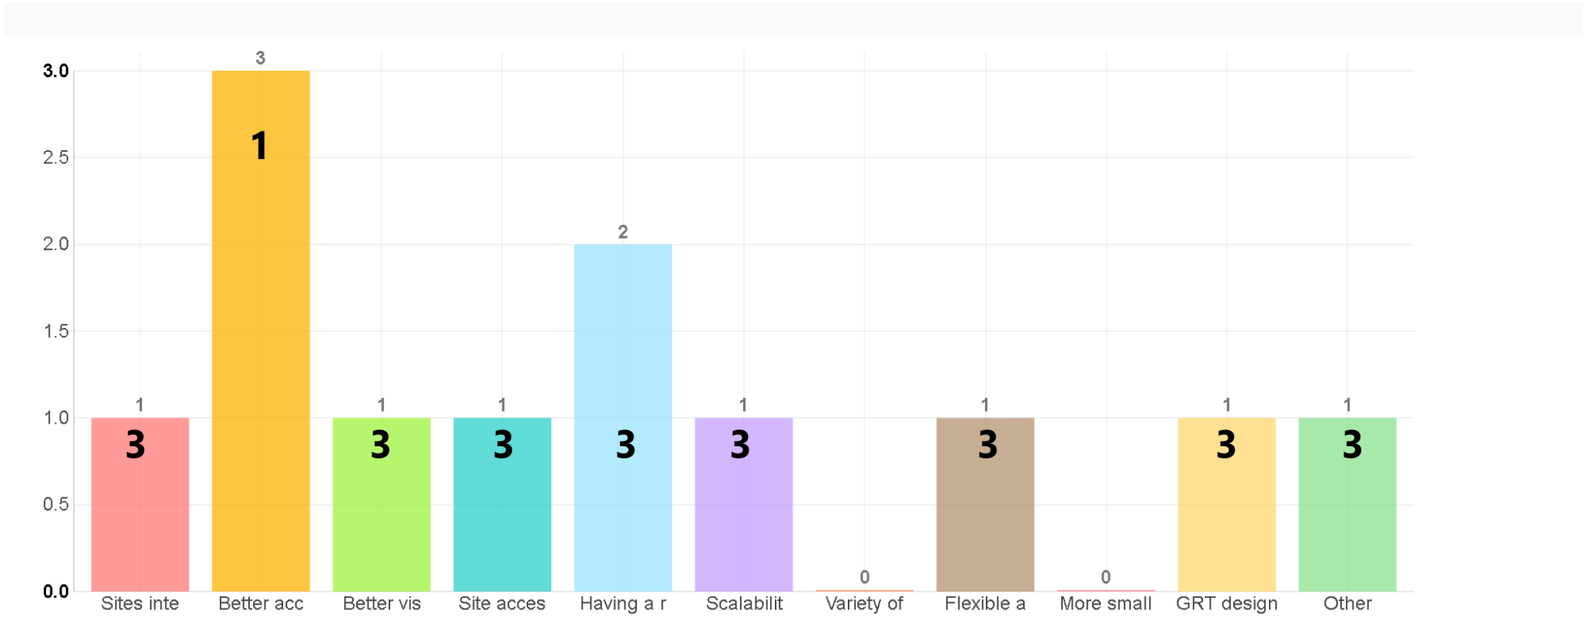
Crime on site and or in local area

Lack of character

Other/ see comments section in individual surveys

Appendix A1

SURVEY 1 - 1B DESIRES



Sites integrated into wider context and better site availability – in towns, cities, countryside with better public transportation links

Better access to health and education (Health & Wellbeing)

Better visual connections to surroundings – i.e. landscape, streetscape

Site access – i.e. more than one access point, more open boundary conditions using trees or open to nearby streets, better access for emergency vehicles

Having a right to buy (ownership)

Scalability to plots and sites (growth and or greater density on site, flexible and adaptable spaces for community inter-vention, reusing existing sites, growing temporary sites)

Variety of housing options in each local authority for GRT accommodation – Group Housing, serviced sites, transit sites, private sites, halting sites and stopping places

Flexible and hybrid sites (i.e. Sites that combine social housing and caravan pitches or sites that double up as holiday parks during specific seasons)

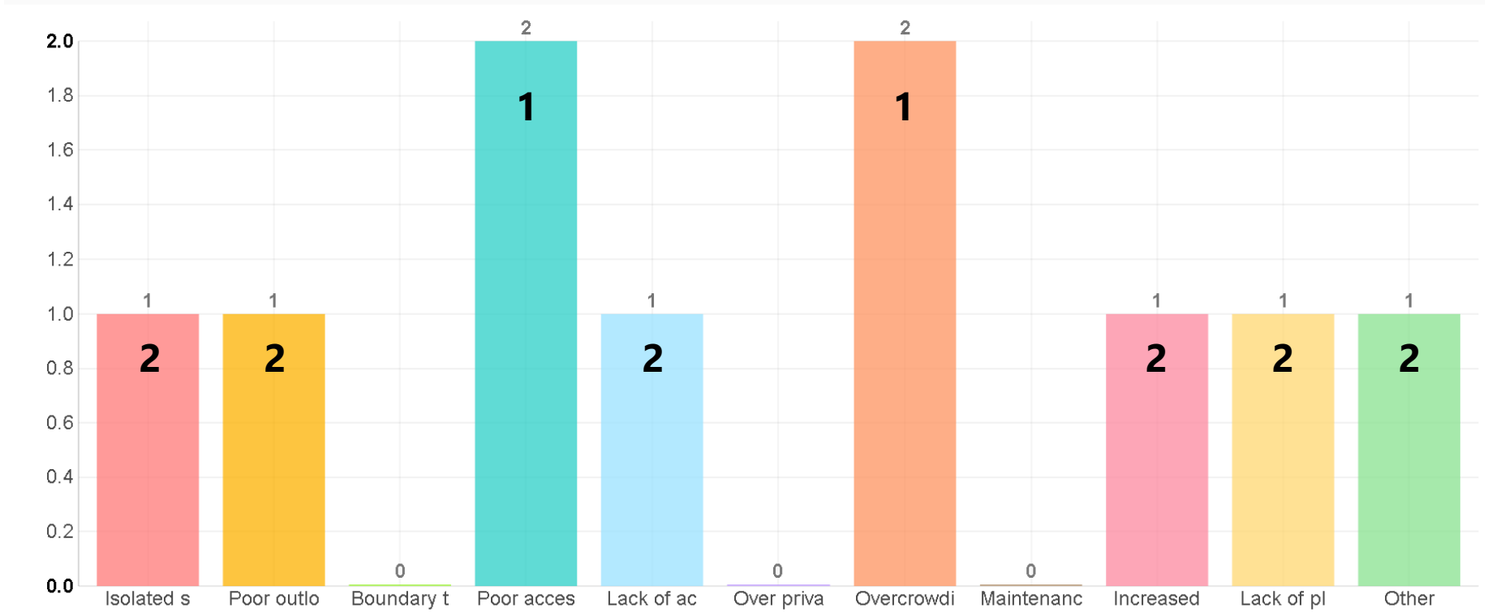
More small-scale sites – easier maintenance and site availability

GRT designed sites should be included social housing in large

Other/ see comments section in individual surveys

Appendix A1

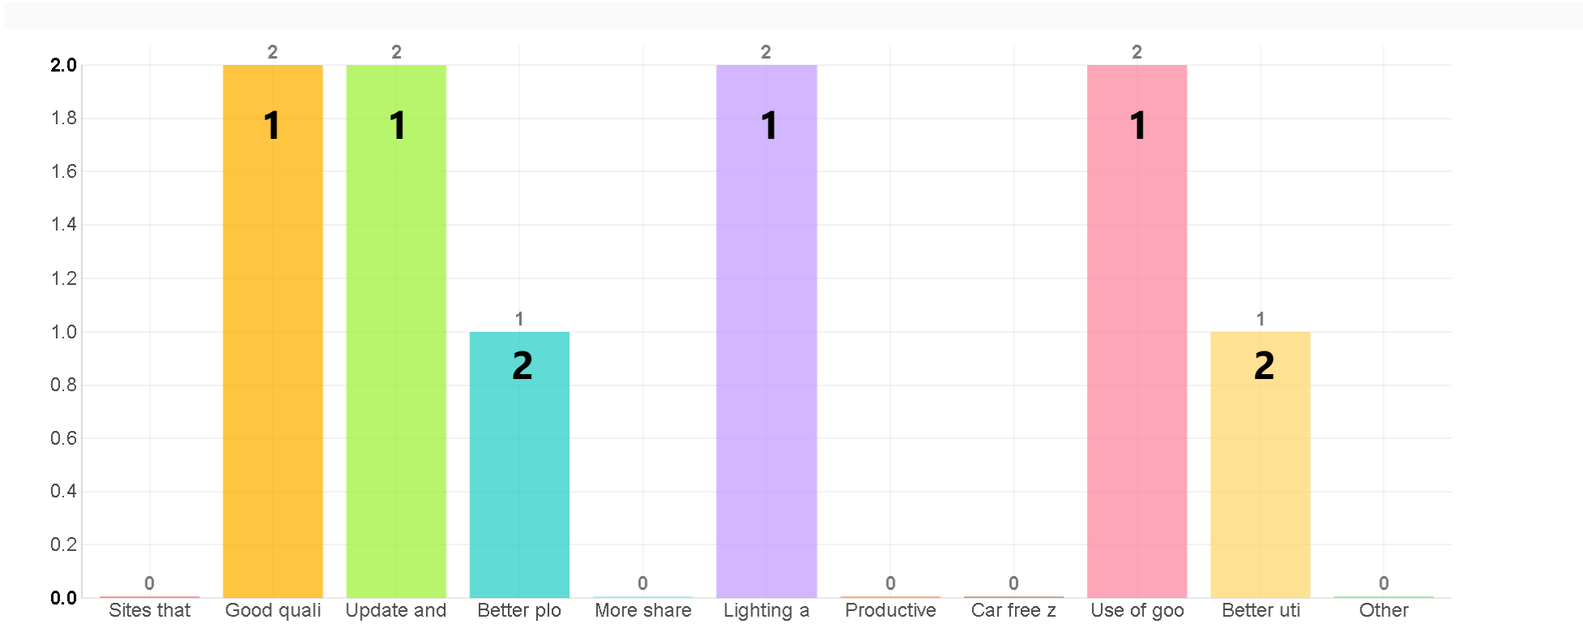
SURVEY 1 - 1B CONCERNS



- Isolated sites & Visibility to outside world (hidden from view)
- Poor outlook & surrounding Land Use – i.e. Recycling and waste facilities, underpasses etc.
- Boundary treatments i.e. single entrance road with high perimeter walls that fence off sites
- Poor access to public transportation and nearby amenities – shops, sports clubs, restaurants etc
- Lack of access to Schools & Nurseries to improve employment opportunities
- Over privatisation of sites
- Overcrowding and oversized sites
- Maintenance and responsibility of site management
- Increased living costs & Affordable accommodation
- Lack of planning engagement, opportunities and accountability
- Other/ see comments section in individual surveys

Appendix A1

SURVEY 1 - 1C DESIRES



Sites that respond to area and improve relationship with neighbours - reflecting local character in the designs of outbuildings to address street and respect GRT culture

Good quality green spaces & Landscaping improving biodi-versity (wildlife)

Update and improve existing sites

Better plot layouts & caravan siting – i.e. More open space, productive landscape between plots, site shape to prevent overlooking, orienta-tion of plots for views, solar gain and consideration of daily lifestyle

More shared communal space (Playgrounds, sport and creative space)

Lighting and visibility at night

Productive landscape (Food) & space for wildlife (i.e. Horses)

Car free zones & traffic calming measures

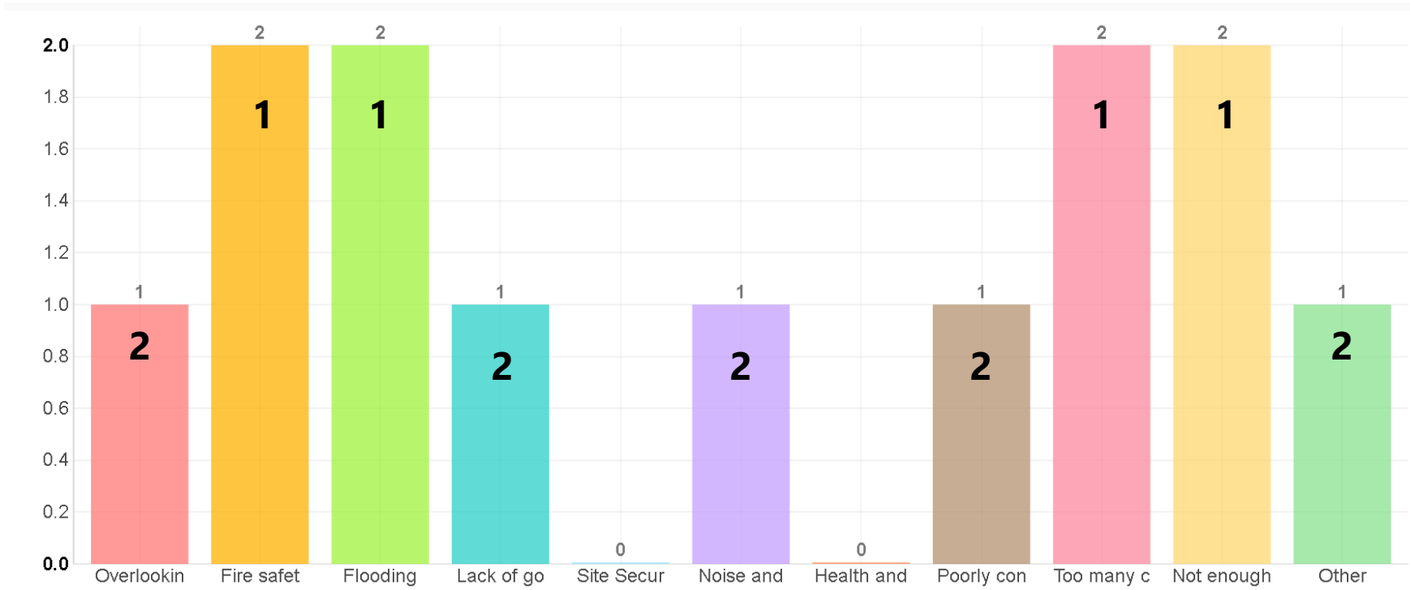
Use of good quality materials in construction & Green technologies that will help reduce my energy costs (Sustainability)

Better utilities on sites and storage – waste, water, electricity etc

Other/ see comments section in individual surveys

Appendix A1

SURVEY 1 - 1C CONCERNS



Direct overlooking of plots and not enough space between neighbours

Fire safety and risk on site because of overcrowding

Sites that experience heavy flooding or in places that are in flood plan

Not enough landscaping and too much car parking on site and others (Diversity)

Poor site security and safety for children on site

Noise and isolation because of bad site locations

Health and Safety on site – impact of neighbouring site uses (pollution)

Poorly constructed plots and buildings on site that don't last

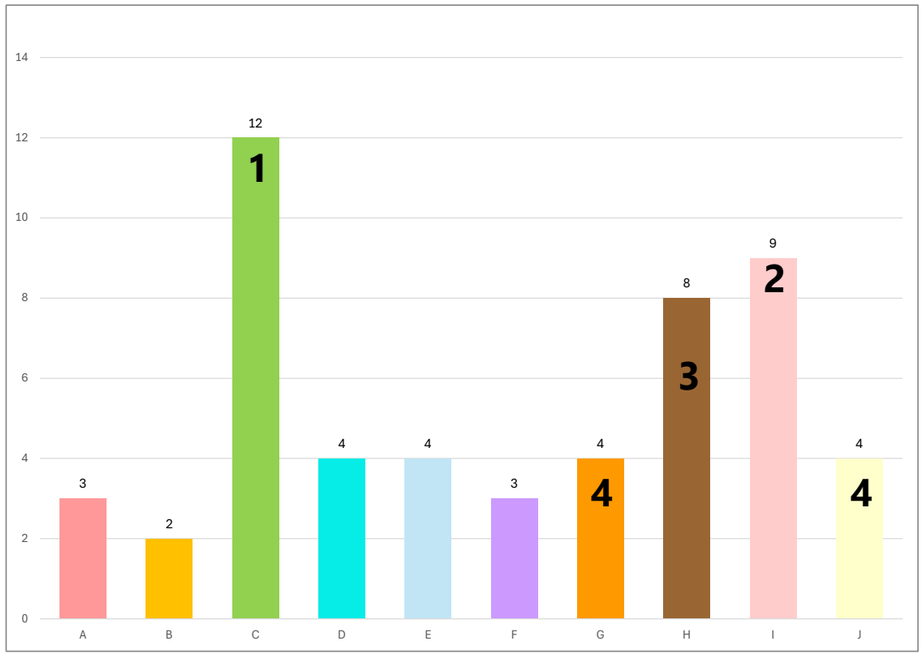
Too many caravans on site – Site density & over development

Not enough space for my family to grow

Other/ see comments section in individual surveys

Appendix A2

SURVEY 2 - 1A DESIRES



Shared Heart - Communal Space

Multi-Purpose space for community and local activities – i.e. Shared Playgrounds & green areas

Designing places to live that have included me in the process (Inclusive Design & Community engagement)

Living with Gypsies, Roma, Travellers and others (Diversity)

Environments that encourage multi-generational living (living with grandparents, kids, grand children)

Better place making – i.e. sites being near community spaces and non-residential activities

Live & workspaces on site (Self-sufficiency & employment generating activities on site)

Teaching spaces for GRT – i.e. alternative education models – home schooling/ distance learning, community storytelling, apprenticeship's etc.

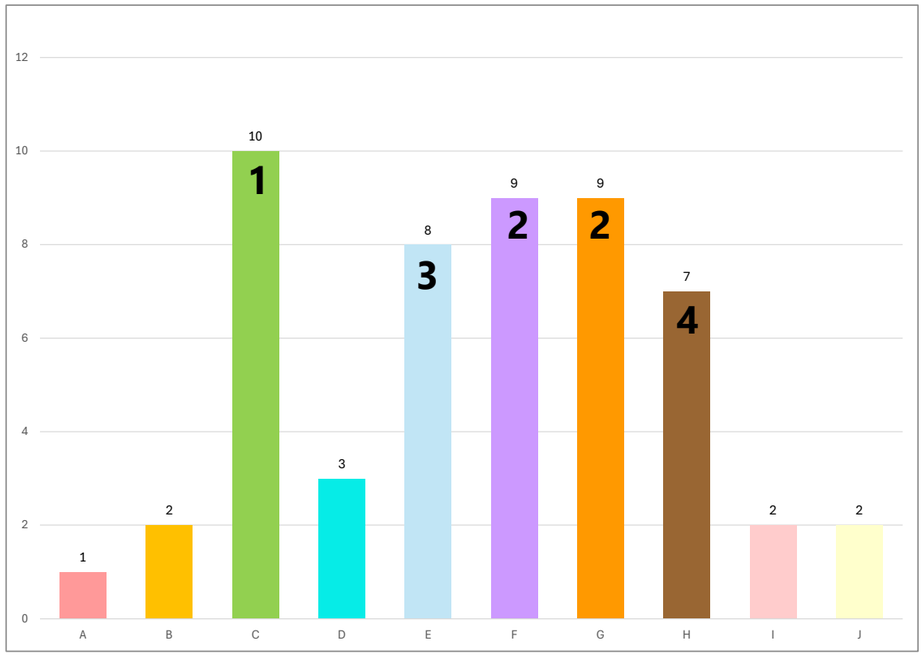
More accurate needs-based assessments by local authority for Gypsy, Roma, Travellers for selected sites

Being able to choose between a house or a site

Other/ see comments section in individual surveys

Appendix A2

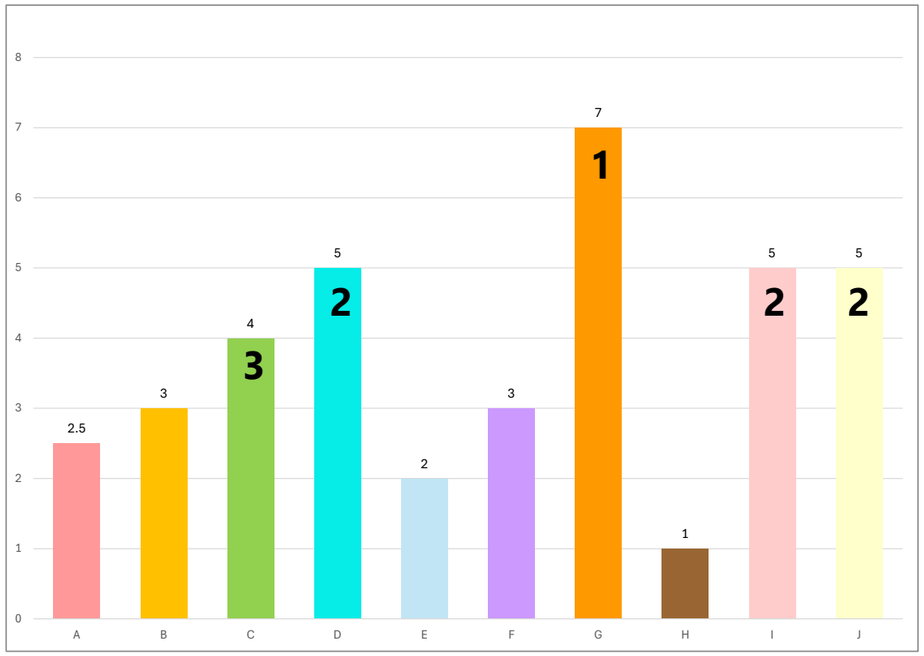
SURVEY 2 - 1A CONCERNS



- Loss of community through integration/ shared amenities with locals
- Not being able to travel or have access to sites if I live in a house
- Forced settlement in places that don't reflect how I want to live
- Less communal space on sites because it's under used or neglected (More private amenity spaces needed)
- Poor quality and unsuitable Amenity buildings that don't suit GT needs (Outbuildings on site)
- Poor management and life cycle of sites (sites getting run down quickly)
- Lack of space for family or friends to stay
- Homelessness due to lack of accommodation
- Crime on site and or in local area
- Lack of character
- Other/ see comments section in individual surveys

Appendix A2

SURVEY 2 - 1B DESIRES



Sites integrated into wider context and better site availability – in towns, cities, countryside with better public transportation links

Better access to health and education (Health & Wellbeing)

Better visual connections to surroundings – i.e. landscape, streetscape

Site access – i.e. more than one access point, more open boundary conditions using trees or open to nearby streets, better access for emergency vehicles

Having a right to buy (ownership)

Scalability to plots and sites (growth and or greater density on site, flexible and adaptable spaces for community intervention, reusing existing sites, growing temporary sites)

Variety of housing options in each local authority for GRT accommodation – Group Housing, serviced sites, transit sites, private sites, halting sites and stopping places

Flexible and hybrid sites (i.e. Sites that combine social housing and caravan pitches or sites that double up as holiday parks during specific seasons)

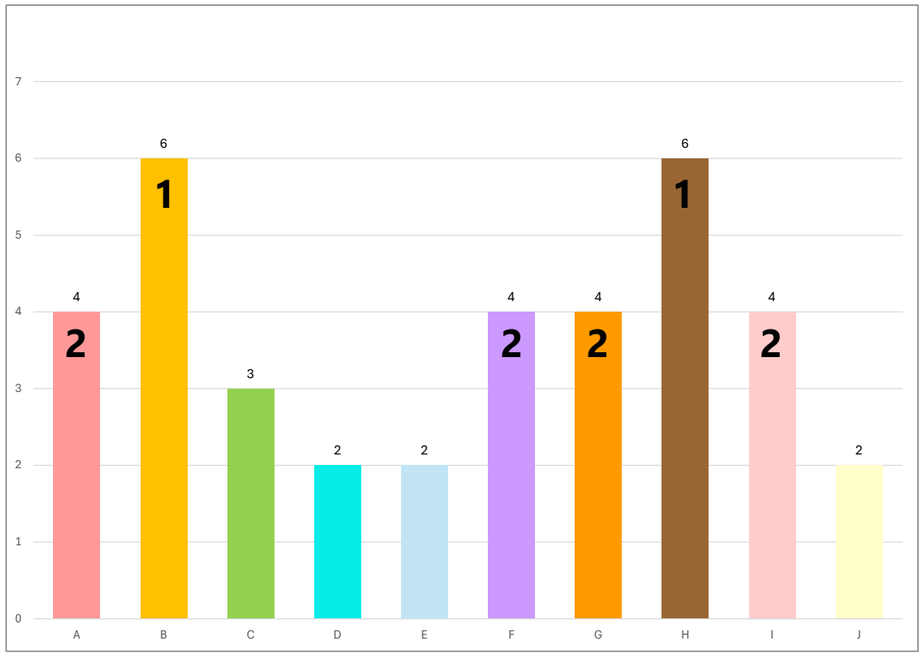
More small-scale sites – easier maintenance and site availability

GRT designed sites should be included social housing in large

Other/ see comments section in individual surveys

Appendix A2

SURVEY 2 - IB CONCERNS



Isolated sites & Visibility to outside world (hidden from view)

Poor outlook & surrounding Land Use – i.e. Recycling and waste facilities, underpasses etc.

Boundary treatments i.e. single entrance road with high perimeter walls that fence off sites

Poor access to public transportation and nearby amenities – shops, sports clubs, restaurants etc

Lack of access to Schools & Nurseries to improve employment opportunities

Over privatisation of sites

Overcrowding and oversized sites

Maintenance and responsibility of site management

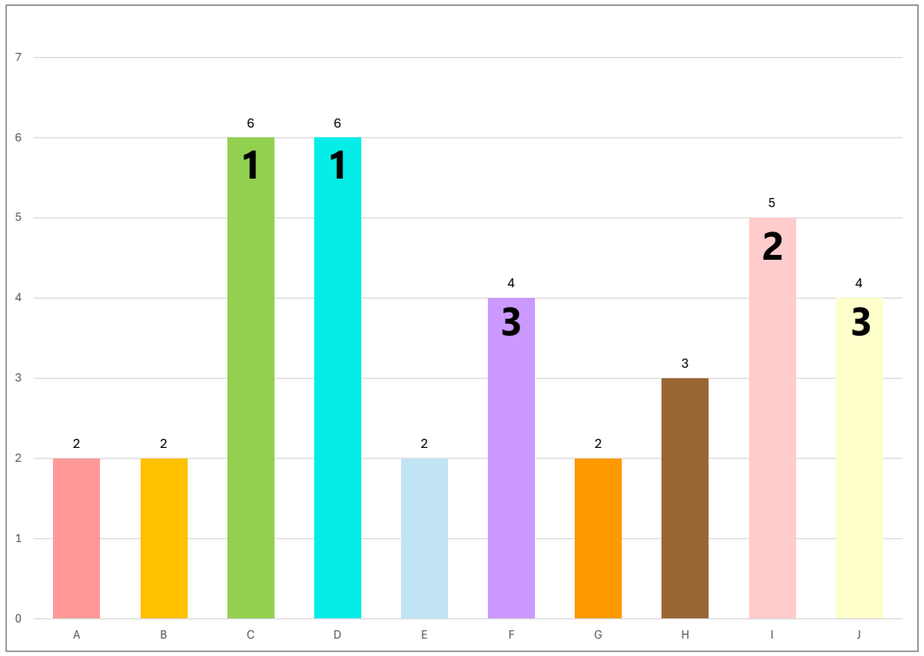
Increased living costs & Affordable accommodation

Lack of planning engagement, opportunities and accountability

Other/ see comments section in individual surveys

Appendix A2

SURVEY 2 - 1C DESIRES



Sites that respond to area and improve relationship with neighbours - reflecting local character in the designs of outbuildings to address street and respect GRT culture

Good quality green spaces & Landscaping improving biodiversity (wildlife)

Update and improve existing sites

Better plot layouts & caravan siting – i.e. More open space, productive landscape between plots, site shape to prevent overlooking, orientation of plots for views, solar gain and consideration of daily lifestyle

More shared communal space (Playgrounds, sport and creative space)

Lighting and visibility at night

Productive landscape (Food) & space for wildlife (i.e. Horses)

Car free zones & traffic calming measures

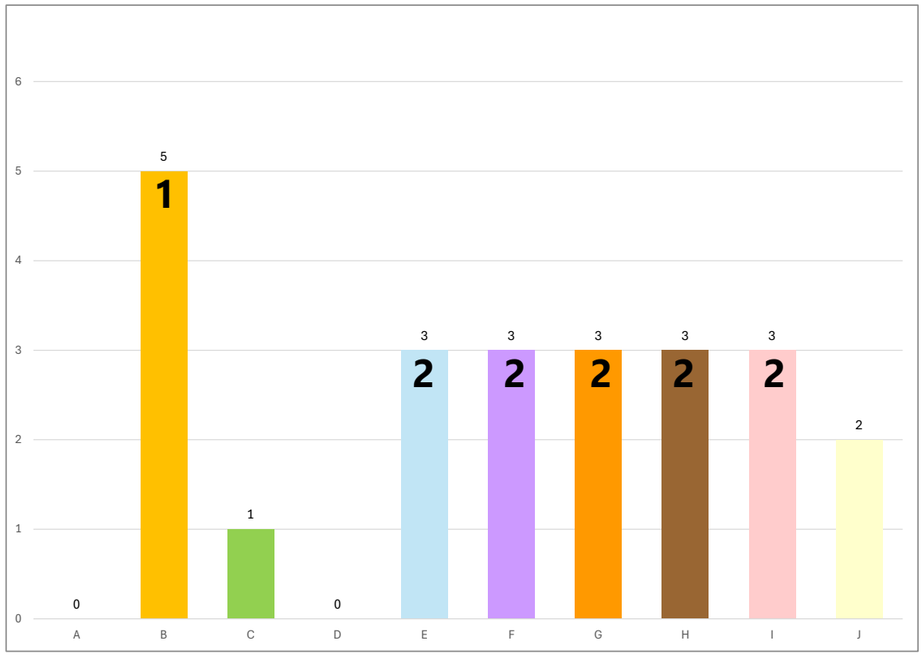
Use of good quality materials in construction & Green technologies that will help reduce my energy costs (Sustainability)

Better utilities on sites and storage – waste, water, electricity etc

Other/ see comments section in individual surveys

Appendix A2

SURVEY 2 - 1C CONCERNS



Direct overlooking of plots and not enough space between neighbours

Fire safety and risk on site because of overcrowding

Sites that experience heavy flooding or in places that are in flood plan

Not enough landscaping and too much car parking on site and others (Diversity)

Poor site security and safety for children on site

Noise and isolation because of bad site locations

Health and Safety on site – impact of neighbouring site uses (pollution)

Poorly constructed plots and buildings on site that don't last

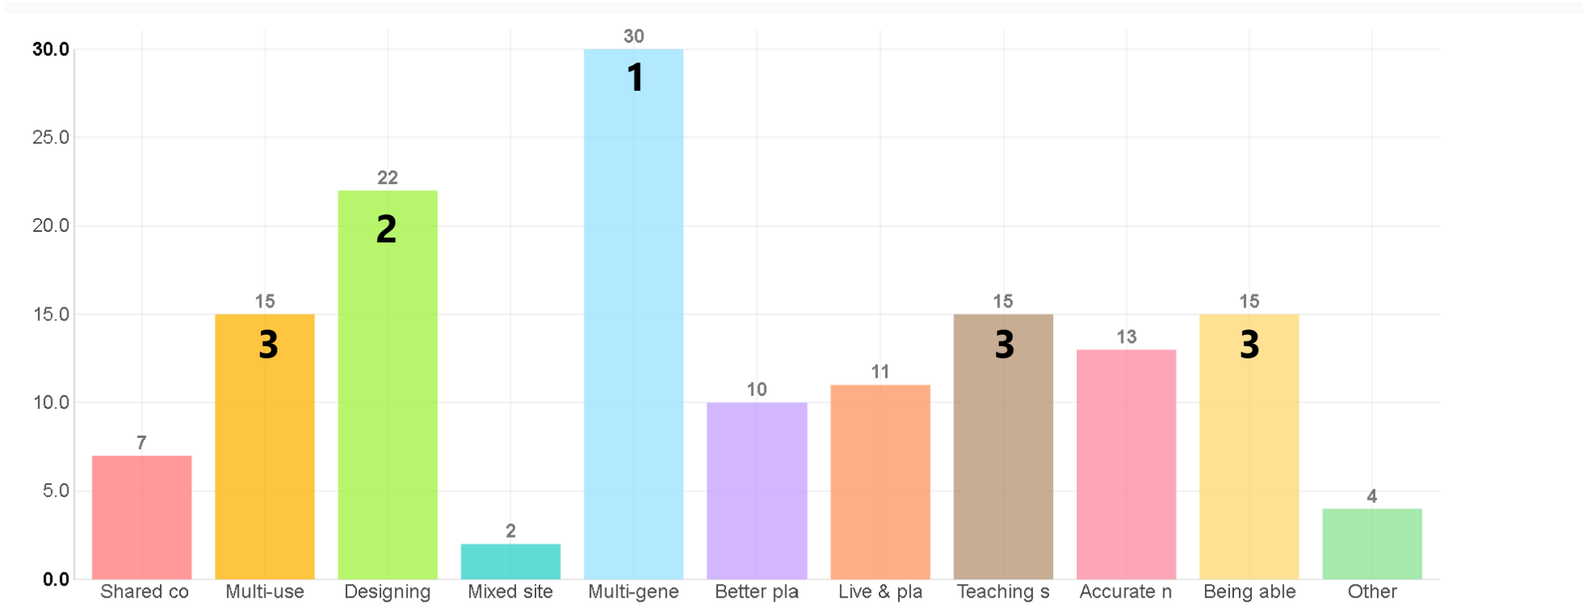
Too many caravans on site – Site density & over development

Not enough space for my family to grow

Other/ see comments section in individual surveys

Appendix A3

SURVEY 3 - S1 DESIRES



Shared communal space (Social Heart)

Multi-use space for community and local activities – i.e. Shared Playgrounds & green areas

Designing places to live that have included me in the process (Inclusive Design & Community engagement)

Mixed sites - Living with Gypsies, Roma, Travellers and others (Diversity)

Multi-generational living (living with Grandparents, parents, kids, grand children)

Better place making – i.e. sites being near community spaces and non-residential activities

Live & places to work on site (Self Employment and space to work separate from living)

Teaching space – i.e. different types of education – home schooling/ distance learning, community storytelling, apprenticeships etc.

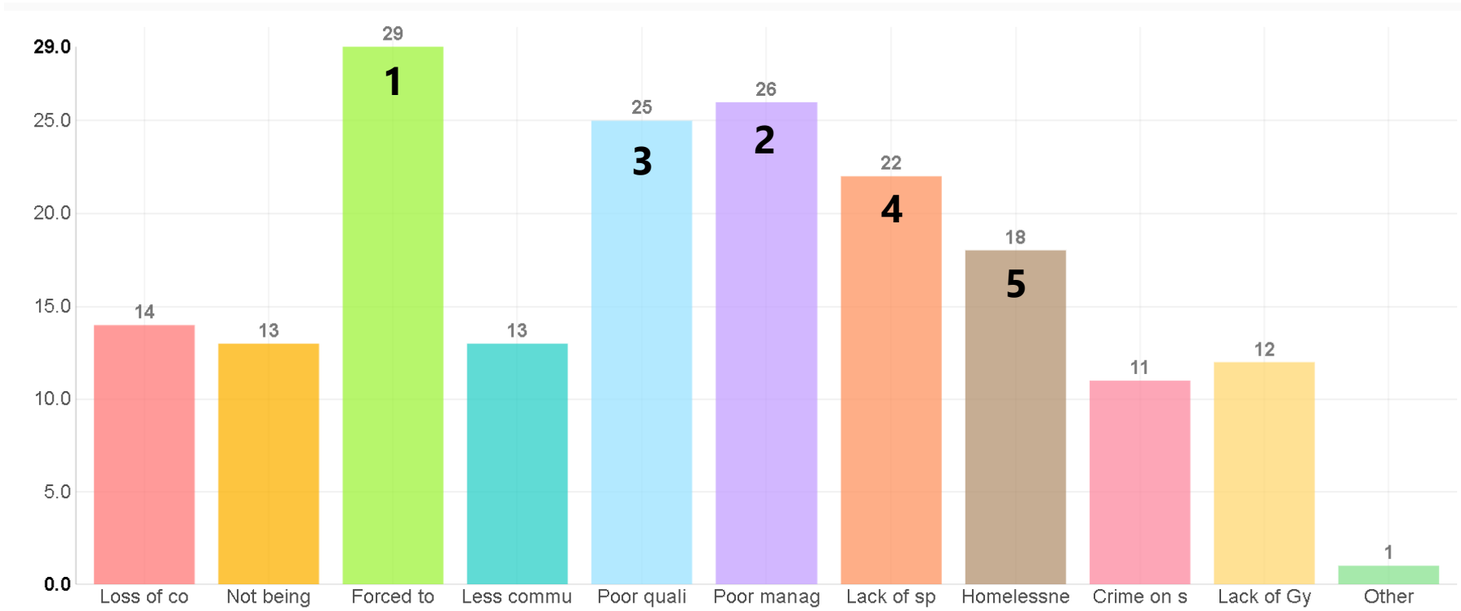
Accurate needs -based assessments (by local authority for Gypsy & Travellers for selected sites)

Being able to chose between a house, site or combined

Other/ see comments section in individual surveys

Appendix A3

SURVEY 3 - S1 CONCERNS



Loss of community through integration (shared amenities with locals)

Not being able to travel or have access to sites if I live in a house

Forced to live in unsuitable places

Less communal space on sites because it's neglected (for example - more private amenity spaces needed)

Poor quality/ Amenity buildings that don't suit our needs (Outbuildings on site)

Poor management and maintenance (sites getting run down quickly)

Lack of space for family or friends to stay

Homelessness because of not enough places to live

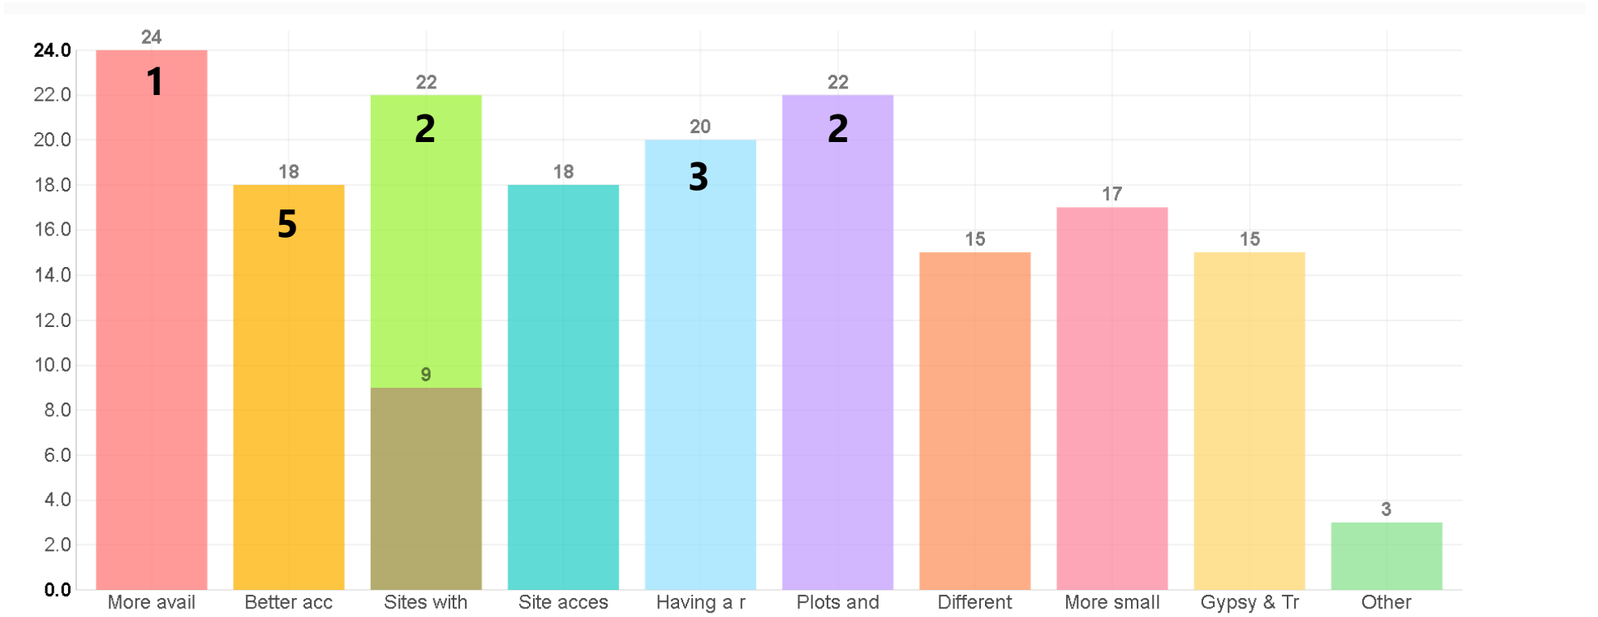
Crime on site and or in local area

Lack of Gypsy & Traveller character and culture

Other/ see comments section in individual surveys

Appendix A3

SURVEY 3 - S2 DESIRES



More available sites with better connections – in towns, cities, countryside with better public transportation links

Better access to health and education (health & wellbeing)

Sites with nicer surroundings – i.e. landscape, nice street, not next to scrap/ tip yards

Site access – i.e. more than one point of entry, more open boundary conditions using trees, better access for emergency

Having a right to buy (ownership)

Plots and sites that can grow based on need (allowing families to grow and stay, adaptable, community driven, reusing/re-planning existing sites, growing temporary sites to provide short term places to live)

Different Options for G&T accommodation in each local authority – Group Housing, serviced sites, transit sites, private sites, haltingsites

Sites with plots and houses (i.e. Sites that combine social housing and/ or caravan pitches that double up as holiday parks when not used)

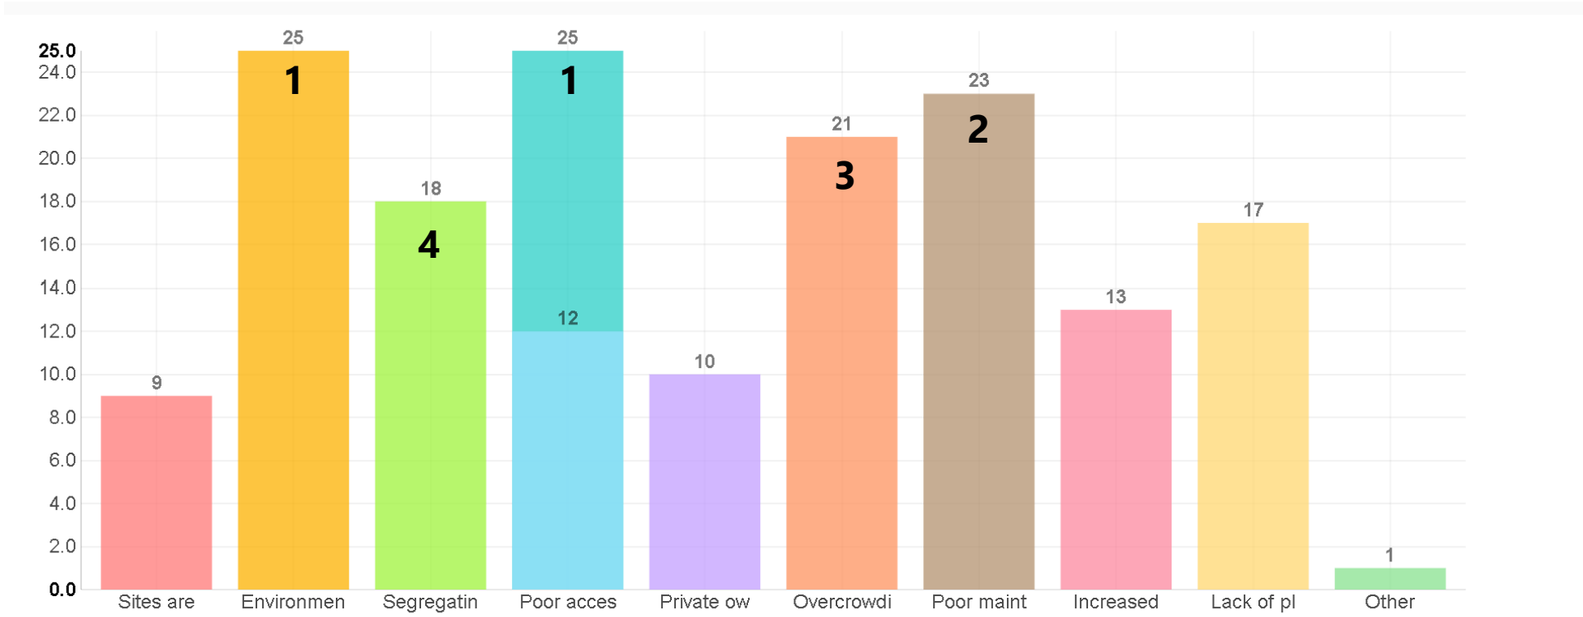
More small-scale sites – easier maintenance and site availability in different areas

Gypsy & Traveller designed sites should be included as a part of social housing in large scale developments

Other/ see comments section in individual surveys

Appendix A3

SURVEY 3 - S2 CONCERNS



Sites are hidden to outside world (Visibility in local area)

Environmental racism & surrounding Land Use – i.e. Recycling and waste facilities, under motorways etc.

Segregating site boundaries - i.e. single entrance with high perime-ter concrete walls that fence in sites

Poor access to public transport and nearby amenities - shops, sports clubs, restaurants etc

Poor access to Schools & Nurseries to improve employment opportunities

Private ownership and not enough public owned sites

Overcrowding, oversized and unauthorised sites

Poor maintenance and responsibility of site management from local authority

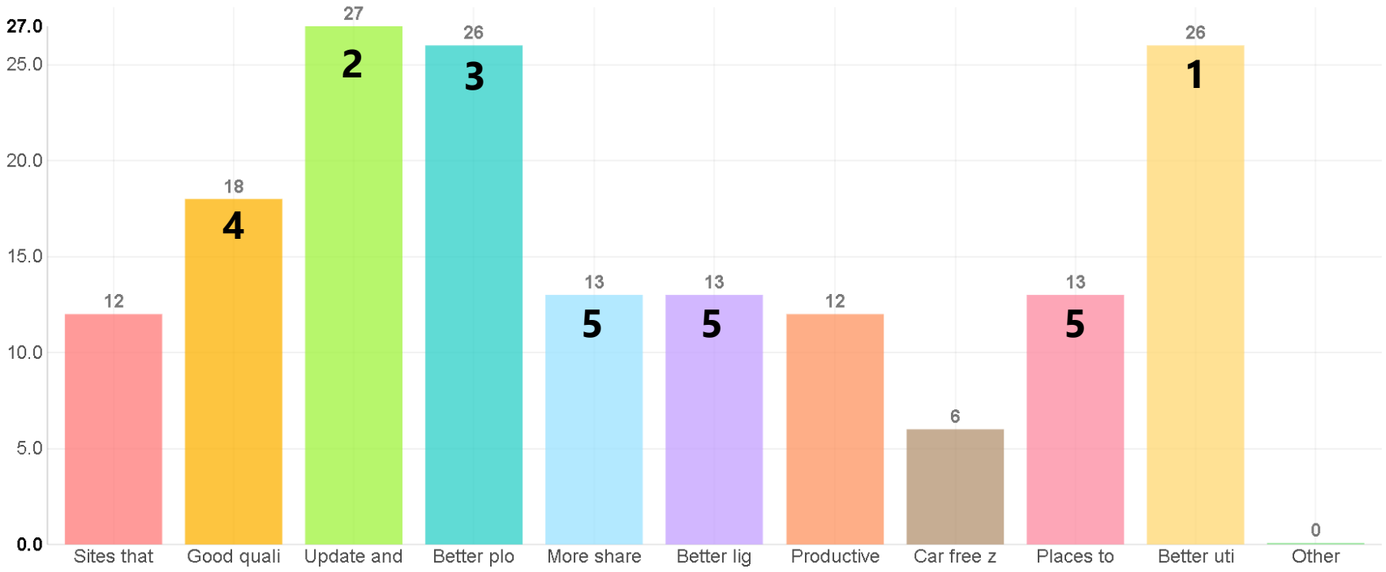
Increased living costs & Affordable accommodation

Lack of planning engagement, opportunities and a ccountability from local authority

Other/ see comments section in individual surveys

Appendix A3

SURVEY 3 - S3 DESIRES



Sites that improve relationship with neighbours (reflecting local character and respect G&T culture)

Good quality green spaces & Landscaping (improving biodi-versity & wildlife)

Update and improve existing sites

Better plot layouts & caravan siting (More open space, landscape between plots, site shape to prevent overlooking, better plots views, more light and consideration of lifestyle)

More shared communal space (Playgrounds, area for sport and other uses)

Better lighting and visibility at night

Productive landscape (to grow food & space for wildlife/ animals on site i.e. Horses)

Car free zones & traffic calming measures around site (improving air quality)

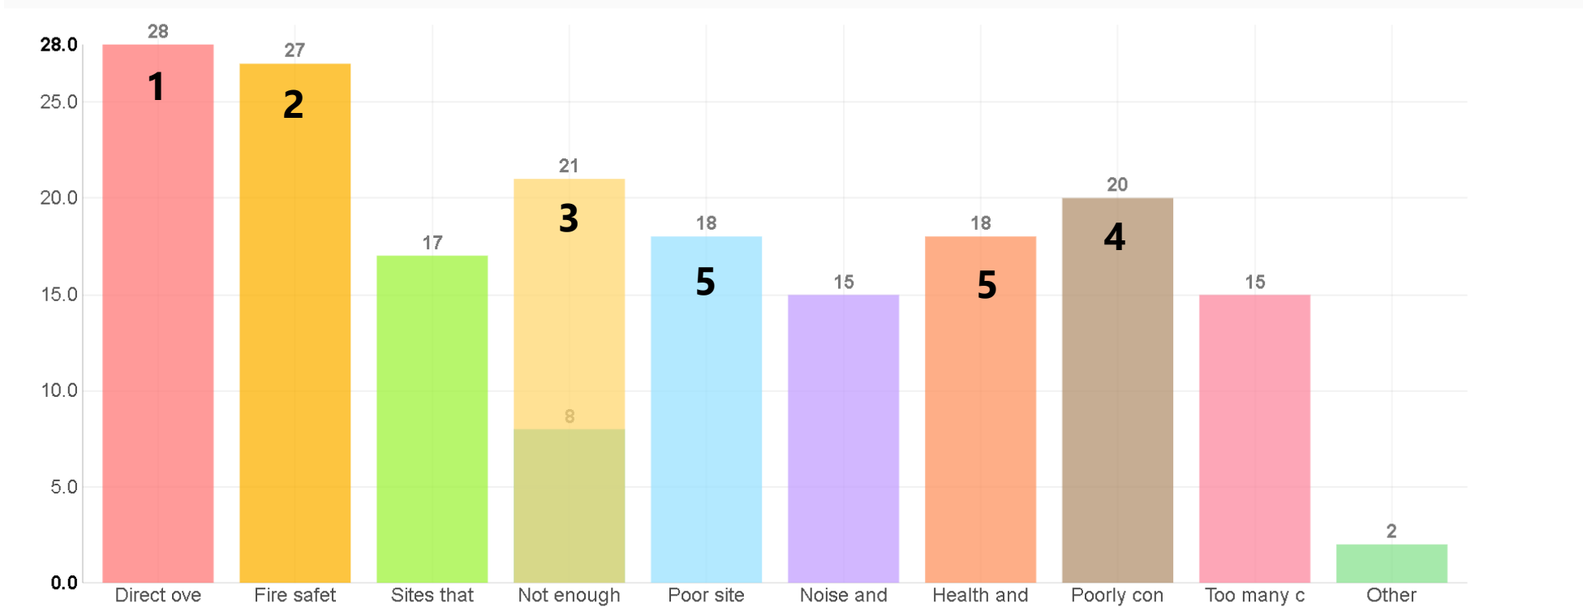
Places to live that use good quality materials & Green technologies that will help reduce my energy costs (Sustainability – using solar

Better utilities on sites and storage (waste, water, electricity etc)

Other/ see comments section in individual surveys

Appendix A3

SURVEY 3 - S3 CONCERNS



Direct overlooking of plots and not enough space between neighbours

Fire safety and risk on site because of overcrowding

Sites that experience heavy flooding or in places that are in flood planes

Not enough landscaping and too much car parking on site

Poor site security and safety for children on site

Noise and isolation because of bad site locations

Health and Safety on site – impact of neighbouring site uses (pollution)

Poorly constructed plots and buildings on site that don't last

Too many caravans on site – Site density & over development

Not enough space for my family to grow

Other/ see comments section

Community, Culture & Heritage - Desires

Please select 5 and add additional desires in 'other' below.

- [x] Environments that encourage multi-generational living (living with grandparents, kids, grand children)
- [x] Live & workspaces on site (Self-sufficiency & employment generating activities on site)
- [x] Other

Not far from a main road, for the lorries

*

2. Section 01a - Desires & Concerns for GRT Accommodation

Community, Culture & Heritage - Concerns

Please select 5 and add additional concerns in 'other' below.

- [x] Poor management and life cycle of sites (sites getting run down quickly)
- [x] Homelessness due to lack of accommodation
- [x] Crime on site and or in local area
- [x] Other

not enough space for the loads

*

3. Section 01b – Desires & Concerns for GRT Accommodation

Connectivity & Land Use - Desires

?

- [x] Better access to health and education (Health & Wellbeing)
- [x] Site access – i.e. more than one access point, more open boundary conditions using trees or open to nearby streets, better access for emergency vehicles
- [x] Having a right to buy (ownership)
- [x] Other

council sites for showmen needs

*

4. Section 01b – Desires & Concerns for GRT Accommodation

Connectivity & Land Use - Concerns

?

- [x] Lack of access to Schools & Nurseries to improve employment opportunities
- [x] Increased living costs & Affordable accommodation
- [x] Other

nobody to run a phone line to us due to expense.

*

5. Section 01c – Desires & Concerns for GRT Accommodation

Environment - Desires

?

- [x] Update and improve existing sites
- [x] Use of good quality materials in construction & Green technologies that will help reduce my energy costs (Sustainability)
- [x] Better utilities on sites and storage – waste, water, electricity etc
- [ ] Other

*

6. Section 01c – Desires & Concerns for GRT Accommodation

Environment - Concerns

?

- [x] Fire safety
- [x] Flooding
- [x] Too many caravans on site – Site density & over development
- [x] Not enough space for my family
- [x] Other

security on sites- not enough good fencing to stop our stuff getting stolen or messed with

1. Section 01a - Desires & Concerns for GT Accommodation

Community, Culture & Heritage - Desires

Please select 5 and add additional desires in 'other' below.

- [x] Environments that encourage multi-generational living (living with grandparents, kids, grand children)
- [x] Better place making – i.e. sites being near community spaces and non-residential activities
- [x] Live & workspaces on site (Self-sufficiency & employment generating activities on site)
- [ ] Other

*

2. Section 01a - Desires & Concerns for GRT Accommodation

Community, Culture & Heritage - Concerns

Please select 5 and add additional concerns in 'other' below.

- [x] Lack of space for family or friends to stay
- [x] Crime on site and or in local area
- [x] Lack of character
- [x] Other

Sites in the middle of nowhere, no community beyond other people on the site. Having to drive everywhere

*

3. Section 01b – Desires & Concerns for GRT Accommodation

Connectivity & Land Use - Desires

?

- [x] Sites integrated into wider context and better site availability – in towns, cities, countryside with better public transportation links
- [x] Better access to health and education (Health & Wellbeing)
- [x] Having a right to buy (ownership)
- [ ] Other

*

4. Section 01b – Desires & Concerns for GRT Accommodation

Connectivity & Land Use - Concerns

?

- [x] Poor access to public transportation and nearby amenities – shops, sports clubs, restaurants etc
- [x] Overcrowding and oversized sites
- [ ] Other

*

5. Section 01c – Desires & Concerns for GRT Accommodation

Environment - Desires

?

- [x] Good quality green spaces & Landscaping improving biodiversity (wildlife)
- [x] Lighting and visibility at night
- [ ] Other

*

6. Section 01c – Desires & Concerns for GRT Accommodation

Environment - Concerns

?

- [x] Fire safety
- [x] Flooding
- [x] Too many caravans on site – Site density & over development
- [ ] Other

7. Section 02 – Tools for Change: Suggestions & Solutions

?

I don't think we can rely on councils. Is there space for a group to create private sites instead? This would also ensure that all travellers are catered for whereas now it is mostly just romany gypsies, scottish travellers & irish travellers. councils don't really cater for showmen or new travellers

Section 01b – Desires & Concerns for G&T Accommodation (Multi-Choice)

Connectivity & Land Use – Desires (Please select 5)

1) Sites integrated into wider context and better site availability – in towns, cities, countryside with better public transportation links
2) Better access to health and education (Health & Wellbeing)
3) Better visual connections to surroundings – i.e. landscape, streetscape
4) Site access – i.e. more than one access point, more open boundary conditions using trees or open to nearby streets, better access for emergency vehicles
5) Having a right to buy (ownership)
6) Scalability to plots and sites (growth and or greater density on site, flexible and adaptable spaces for community intervention, reusing existing sites, growing temporary sites)
7) Variety of housing options in each local authority for GRT accommodation – Group Housing, serviced sites, transit sites, private sites, halting sites and stopping places
8) Flexible and hybrid sites (i.e. Sites that combine social housing and caravan pitches or sites that double up as holiday parks during specific seasons)
9) More small-scale sites – easier maintenance and site availability in different areas
10) GRT designed sites should be included social housing in large scale developments

Additional Desires you would like to add -

MOVING FOR CHANGE

Section 01b – Desires & Concerns for G&T Accommodation (Multi-Choice)

Connectivity & Land Use – Desires (Please select 5)

---

1) Sites integrated into wider context and better site availability – in towns, cities, countryside with better public transportation links (range of geography + type).
2) Better access to health and education (Health & Wellbeing) Our local data shows this is more relating to training of Key Stagg than geographical location – housed families' health access as bad as sited.
3) Better visual connections to surroundings – i.e. landscape, streetscape
4) Site access – i.e. more than one access point, more open boundary conditions using trees or open to nearby streets, better access for emergency vehicles
5) Having a right to buy (ownership)
6) Scalability to plots and sites (growth and or greater density on site, flexible and adaptable spaces for community intervention, reusing existing sites, growing temporary sites)
7) Variety of housing options in each local authority for GRT accommodation – Group Housing, serviced sites, transit sites, private sites, halting sites and stopping places
8) Flexible and hybrid sites (i.e. Sites that combine social housing and caravan pitches or sites that double up as holiday parks during specific seasons) This has been identified as a huge no no by our Communities in N.I.
9) More small-scale sites – easier maintenance and site availability in different areas
10) GRT designed sites should be included social housing in large scale developments

Additional Desires you would like to add - Needs to have local community needs embedded into designs as these vary. ie. Some of our communities want bungalows/ nice with decent design transit sites rather than basic & others who are much happier being roadside & only being left alone to get on with their lives.

MOVING FOR CHANGE

Section 01c – Desires & Concerns for G&T Accommodation (Multi-Choice)

Environment - Desires (Please select 5)

1) Sites that respond to area and improve relationship with neighbours - reflecting local character in the designs of outbuildings to address street and respect GRT culture
2) Good quality green spaces & Landscaping improving biodiversity (wildlife) ✓
3) Update and improve existing sites ✓
4) Better plot layouts & caravan siting – i.e. More open space, productive landscape between plots, site shape to prevent overlooking, orientation of plots for views, solar gain and consideration of daily lifestyle ✓
5) More shared communal space (Playgrounds, sport and creative space) ✗
6) Lighting and visibility at night ✓
7) Productive landscape (Food) & space for wildlife (i.e. Horses) ✗
8) Car free zones & traffic calming measures
9) Use of good quality materials in construction & Green technologies that will help reduce my energy costs (Sustainability) ✓✓
10) Better utilities on sites and storage – waste, water, electricity etc ✓

~~Clean air~~

Additional Desires you would like to add -

Clean air – not next to industrial sites, not just about car pollution

MOVING FOR CHANGE

Section 02 – Tools for Change: Suggestions & Solutions

Please list your main Desires/ Concerns below

Desires

People listened to/ Consulted/ Co-production from outset even before money accessed – 'real' G-TAAAs not desktops sep. to LAs!

Variety of options & recognition of not one-size-fitting-all.

Proper costings; appropriate places.

Concerns

- Exploitation within private sites –

Prioritisation of settled pop/ acceptance of racism/active 'Gypsyism' by councils to keep communities out.

Lack of planning – linked to political 4yr voting cycles needs break

MPs/Councillors banned from standing on anti-Travellers platform.

What are the barriers in achieving your Desires/ concerns above?

- Prejudice, racism, ignorance + fears (ungrounded).
- No planning w/in local authorities beyond voting/ electoral timeframes – & no incentive from central gov.
- G-TAAAs accepted by Councils/ Commissioned by them disincentives to include 'real' figures/ ppl's experiences
- LA departments not speaking to each other & not speaking with Communities either roadside/ sited or in bricks & mortar

What do you think can change or impact it?

- Training/ Education for all key staff in Councils LAs etc.
- Sanctuary spaces/ proper consultations with communities – Varieties of site offers.
- Money! Governmental refurbishment/ site delivery needs to be ongoing – L-T. commitment, not used as a political gesture.
- Access to good practice guide to share/ challenge.

MOVING FOR CHANGE

Section 02 – Tools for Change: Suggestions & Solutions

Please list your main Desires/ Concerns below

- garuteed tenancy & the rights that come with it
- safety - physical & psycological - clean air, safe access, proper light
- enough space for family & friends
- ~~clean~~ acountability for repairs & upkeep
- sustainable living costs.

What are the barriers in achieving your Desires/ concerns above?

politicians / counsillors concerned about votes from counsils
lack of available funding/at the same time as blocking private site development.

What do you think can change or impact it?

MOVING FOR CHANGE

Section 02 – Tools for Change: Suggestions & Solutions

Please list your main Desires/ Concerns below

Improve Existing Site
Good Shared Space
Variety of Housing choice
Small Scale

Exploitation
Protectionism
New use of sites for refugees / asylum seekers
Poor repairs

What are the barriers in achieving your Desires/ concerns above?

Fear & hostility from local communities
Politics & Bureaucracy

Danger of harm feared
Collusion including authorities
Vested interests

What do you think can change or impact it?

"Friendly Churches", Sanctuary slipping
Education for full participation in society of communities
Powerful advocacy from all (those in power and locals)
Resources (Money & Land, Human resources)
Education of "Settled community re travellers etc)

MOVING FOR CHANGE

Section 02 – Tools for Change: Suggestions & Solutions

Please list your main Desires/ Concerns below

COOLING + SHADING
- SPECIFIC TO SITE
- CERTAIN TREES
- ORIENTATION OF SITE

ENVIRONMENTAL IMPACT
- GREENER
- ECO COMPLIANT

What are the barriers in achieving your Desires/ concerns above?

INVESTMENT INTO GREEN ENERGY SOURCES (SOLAR + WIND)

HIRING CONSULTANTS

ENVIRONMENTAL RACISM (local context)
is it child-friendly??
disabled-accessible?

What do you think can change or impact it?

SHOWCASING GOOD EXAMPLES

*

1.

1. Community, Culture & Heritage

Pros (Please select 5)

- [x] **Multi-generational living** (living with Grandparents, parents, kids, grand children)
- [x] **Live & places to work on site** (Self Employment and space to work separate from living)
- [x] Other

better located, closer to wider society

*

2. 1. Community, Culture & Heritage

Con's (Please select 5)

- [x] Forced to live in unsuitable places
- [x] Poor management and maintenance (sites getting run down quickly)
- [x] Homelessness because of not enough places to live
- [x] Crime on site and or in local area
- [ ] Other

*

3.

2. Connectivity and Land Use

Pros (Please select 5)

- [x] **More available sites with better connections** – in towns, cities, countryside with better public transportation links
- [x] **Site access** – i.e. more than one point of entry, more open boundary conditions using trees, better access for emergency vehicles etc.
- [x] **Plots and sites that can grow based on need** (allowing families to grow and stay, adaptable, community driven, reusing/re-planning existing sites, growing temporary sites to provide short term places to live)
- [ ] Other

*

4.

2. Connectivity and Land Use

Con's (Please select 5)

- [x] **Segregating site boundaries** - i.e. single entrance with high perimeter concrete walls that fence in sites
- [x] **Poor access to public transport and nearby amenities** - shops, sports clubs, restaurants etc
- [x] **Poor access to Schools & Nurseries to improve employment opportunities**
- [x] **Private ownership and not enough public owned sites**
- [x] **Overcrowding, oversized and unauthorised sites**
- [ ] Other

*

5. 3. Environment

Pros (Please select 5)

- [x] **Sites that improve relationship with neighbours** (reflecting local character and respect G&T culture)
- [x] **Update and improve existing sites**
- [x] **Better utilities on sites and storage** (waste, water, electricity etc)
- [ ] Other

*

6.

3. Environment

Con's (Please select 5)

- [x] Direct overlooking of plots and not enough space between neighbours
- [x] Fire safety and risk on site because of overcrowding
- [x] Sites that experience heavy flooding or in places that are in flood plan
- [x] Health and Safety on site – impact of neighbouring site uses (pollution)
- [x] Too many caravans on site – Site density & over development
- [ ] Other

*

1.

1. Community, Culture & Heritage

Pros (Please select 5)

- [x] **Shared communal space** (Social Heart)
- [x] **Multi-use space for community and local activities** – i.e. Shared Playgrounds & green areas
- [x] **Multi-generational living** (living with Grandparents, parents, kids, grand children)
- [ ] Other

*

2. 1. Community, Culture & Heritage

Con's (Please select 5)

- [x] Forced to live in unsuitable places
- [x] Poor management and maintenance (sites getting run down quickly)
- [x] Homelessness because of not enough places to live
- [ ] Other

*

3.

2. Connectivity and Land Use

Pros (Please select 5)

- [x] **More available sites with better connections** – in towns, cities, countryside with better public transportation links
- [x] **Sites with nicer surroundings** – i.e. landscape, nice street, not next to scrap/ tip yards
- [x] **Having a right to buy** (ownership)
- [x] **Different Options for G&T accommodation in each local authority** – Group Housing, serviced sites, transit sites, private sites, halting sites and stopping places
- [x] **Sites with plots and houses** (i.e. Sites that combine social housing and/ or caravan pitches that double up as holiday parks when not used)
- [x] **Gypsy & Traveller designed sites should be included as a part of social housing in large scale developments**
- [ ] Other

*

4.

2. Connectivity and Land Use

Con's (Please select 5)

- [x] **Sites are hidden to outside world** (Visibility in local area)
- [x] **Environmental racism & surrounding Land Use** – i.e. Recycling and waste facilities, under motorways etc.
- [x] **Segregating site boundaries** - i.e. single entrance with high perimeter concrete walls that fence in sites
- [x] **Poor access to public transport and nearby amenities** - shops, sports clubs, restaurants etc
- [x] **Overcrowding, oversized and unauthorised sites**
- [x] **Lack of planning engagement, opportunities and accountability from local authority**
- [ ] Other

*

5. 3. Environment

Pros (Please select 5)

- [x] **Sites that improve relationship with neighbours** (reflecting local character and respect G&T culture)
- [x] **Good quality green spaces & Landscaping** (improving biodiversity & wildlife)
- [x] **More shared communal space** (Playgrounds, area for sport and other uses)
- [x] **Better lighting and visibility at night**
- [x] **Productive landscape** (to grow food & space for wildlife/ animals on site i.e. Horses)
- [ ] Other

*

6.

3. Environment

Con's (Please select 5)

- [x] Direct overlooking of plots and not enough space between neighbours
- [x] Fire safety and risk on site because of overcrowding
- [x] Poor site security and safety for children on site
- [ ] Other

1.

1. Community, Culture & Heritage

Pros (Please select 5)

- [x] **Designing places to live that have included me in the process** (Inclusive Design & Community engagement)
- [x] **Multi-generational living** (living with Grandparents, parents, kids, grand children)
- [x] **Teaching space** – i.e. different types of education – home schooling/ distance learning, community storytelling, apprenticeships etc.
- [x] **Accurate needs -based assessments** (by local authority for Gypsy & Travellers for selected sites)
- [ ] Other

*

2. 1. Community, Culture & Heritage

Con's (Please select 5)

- [x] **Loss of community through integration** (shared amenities with locals)
- [x] **Not being able to travel or have access to sites if I live in a house**
- [x] **Forced to live in unsuitable places**
- [x] **Lack of space for family or friends to stay**
- [x] **Homelessness because of not enough places to live**
- [ ] Other

*

3.

2. Connectivity and Land Use

Pros (Please select 5)

- [x] **Sites with nicer surroundings** – i.e. landscape, nice street, not next to scrap/ tip yards
- [x] **Site access** – i.e. more than one point of entry, more open boundary conditions using trees, better access for emergency vehicles etc.
- [x] **Plots and sites that can grow based on need** (allowing families to grow and stay, adaptable, community driven, reusing/re-planning existing sites, growing temporary sites to provide short term places to live)
- [x] **Sites with plots and houses** (i.e. Sites that combine social housing and/ or caravan pitches that double up as holiday parks when not used)
- [x] **More small-scale sites** – easier maintenance and site availability in different areas
- [x] **Gypsy & Traveller designed sites should be included as a part of social housing in large scale developments**
- [ ] Other

*

4.

2. Connectivity and Land Use

Con's (Please select 5)

- [x] **Sites are hidden to outside world** (Visibility in local area)
- [x] **Segregating site boundaries** - i.e. single entrance with high perimeter concrete walls that fence in sites
- [x] **Poor access to public transport and nearby amenities** - shops, sports clubs, restaurants etc
- [x] **Increased living costs & Affordable accommodation**
- [x] **Lack of planning engagement, opportunities and accountability from local authority**
- [ ] Other

*

5. 3. Environment

Pros (Please select 5)

- [x] **Sites that improve relationship with neighbours** (reflecting local character and respect G&T culture)
- [x] **Good quality green spaces & Landscaping** (improving biodiversity & wildlife)
- [x] **Better plot layouts & caravan siting** (More open space, landscape between plots, site shape to prevent overlooking, better plots views, more light and consideration of lifestyle)
- [x] **Productive landscape** (to grow food & space for wildlife/ animals on site i.e. Horses)
- [x] **Car free zones & traffic calming measures around site** (improving air quality)
- [x] **Places to live that use good quality materials & Green technologies that will help reduce my energy costs** (Sustainability – using solar panels, air source heat pumps, high quality insulation)
- [ ] Other

*

6.

3. Environment

Con's (Please select 5)

- [x] Direct overlooking of plots and not enough space between neighbours
- [x] Fire safety and risk on site because of overcrowding
- [x] Not enough landscaping and too much car parking on site
- [x] Noise and isolation because of bad site locations
- [x] Too many caravans on site – Site density & over development
- [ ] Other

- [x] **Better access to health and education** (health & wellbeing)
- [x] **Site access** – i.e. more than one point of entry, more open boundary conditions using trees, better access for emergency vehicles etc.
- [x] **Having a right to buy** (ownership)
- [x] **Different Options for G&T accommodation in each local authority** – Group Housing, serviced sites, transit sites, private sites, halting sites and stopping places
- [x] **More small-scale sites** – easier maintenance and site availability in different areas
- [ ] Other

*

4.

2. Connectivity and Land Use

Con's (Please select 5)

- [x] **Environmental racism & surrounding Land Use** – i.e. Recycling and waste facilities, under motorways etc.
- [x] **Segregating site boundaries** - i.e. single entrance with high perimeter concrete walls that fence in sites
- [x] **Poor access to public transport and nearby amenities** - shops, sports clubs, restaurants etc
- [x] **Overcrowding, oversized and unauthorised sites**
- [x] **Poor maintenance and responsibility of site management from local authority**
- [ ] Other

*

5. 3. Environment

Pros (Please select 5)

- [x] **Good quality green spaces & Landscaping** (improving biodiversity & wildlife)
- [x] **Update and improve existing sites**
- [x] **Better plot layouts & caravan siting** (More open space, landscape between plots, site shape to prevent overlooking, better plots views, more light and consideration of lifestyle)
- [x] **Better lighting and visibility at night**
- [x] **Better utilities on sites and storage** (waste, water, electricity etc)
- [ ] Other

*

6.

3. Environment

Con's (Please select 5)

- [x] Direct overlooking of plots and not enough space between neighbours
- [x] Fire safety and risk on site because of overcrowding
- [x] Poorly constructed plots and buildings on site that don't last
- [x] Not enough space for my family to grow
- [ ] Other

1.

1. Community, Culture & Heritage

Pros (Please select 5)

- [x] **Multi-generational living** (living with Grandparents, parents, kids, grand children)
- [x] **Being able to chose between a house, site or combined**
- [ ] Other

*

2. 1. Community, Culture & Heritage

Con's (Please select 5)

- [x] **Loss of community through integration** (shared amenities with locals)
- [x] **Forced to live in unsuitable places**
- [x] **Poor quality/ Amenity buildings that don't suit our needs** (Outbuildings on site)
- [x] **Poor management and maintenance** (sites getting run down quickly)
- [x] **Lack of space for family or friends to stay**
- [x] **Crime on site and or in local area**
- [x] **Lack of Gypsy & Traveller character and culture**
- [ ] Other

*

3.

2. Connectivity and Land Use

Pros (Please select 5)

- [x] **More available sites with better connections** – in towns, cities, countryside with better public transportation links
- [x] **Better access to health and education** (health & wellbeing)
- [x] **Sites with nicer surroundings** – i.e. landscape, nice street, not next to scrap/ tip yards
- [x] **Having a right to buy** (ownership)
- [x] **Plots and sites that can grow based on need** (allowing families to grow and stay, adaptable, community driven, reusing/re-planning existing sites, growing temporary sites to provide short term places to live)
- [x] **More small-scale sites** – easier maintenance and site availability in different areas
- [ ] Other

*

4.

2. Connectivity and Land Use

Con's (Please select 5)

- [x] **Environmental racism & surrounding Land Use** – i.e. Recycling and waste facilities, under motorways etc.
- [x] **Overcrowding, oversized and unauthorised sites**
- [x] **Poor maintenance and responsibility of site management from local authority**
- [x] **Increased living costs & Affordable accommodation**
- [ ] Other

*

5. 3. Environment

Pros (Please select 5)

- [x] **Update and improve existing sites**
- [x] **Better plot layouts & caravan siting** (More open space, landscape between plots, site shape to prevent overlooking, better plots views, more light and consideration of lifestyle)
- [x] **Places to live that use good quality materials & Green technologies that will help reduce my energy costs** (Sustainability – using solar panels, air source heat pumps, high quality insulation)
- [x] **Better utilities on sites and storage** (waste, water, electricity etc)
- [ ] Other

*

6.

3. Environment

Con's (Please select 5)

- [x] Direct overlooking of plots and not enough space between neighbours
- [x] Fire safety and risk on site because of overcrowding
- [x] Sites that experience heavy flooding or in places that are in flood plan
- [x] Noise and isolation because of bad site locations
- [x] Health and Safety on site – impact of neighbouring site uses (pollution)
- [x] Poorly constructed plots and buildings on site that don't last
- [x] Too many caravans on site – Site density & over development
- [x] Not enough space for my family to grow
- [ ] Other

- [x] **Sites with nicer surroundings** – i.e. landscape, nice street, not next to scrap/ tip yards
- [x] **Having a right to buy** (ownership)
- [x] **Different Options for G&T accommodation in each local authority** – Group Housing, serviced sites, transit sites, private sites, halting sites and stopping places
- [x] **Sites with plots and houses** (i.e. Sites that combine social housing and/ or caravan pitches that double up as holiday parks when not used)
- [x] **More small-scale sites** – easier maintenance and site availability in different areas
- [x] Other

i think we should have the right to buy but only we have lived on the site for more than 5 years and that we have not been part of asb

*

4.

2. Connectivity and Land Use

Con's (Please select 5)

- [x] **Environmental racism & surrounding Land Use** – i.e. Recycling and waste facilities, under motorways etc.
- [x] **Poor access to public transport and nearby amenities** - shops, sports clubs, restaurants etc
- [x] **Private ownership and not enough public owned sites**
- [x] **Overcrowding, oversized and unauthorised sites**
- [x] **Poor maintenance and responsibility of site management from local authority**
- [x] **Increased living costs & Affordable accommodation**
- [x] **Lack of planning engagement, opportunities and accountability from local authority**
- [ ] Other

*

5. 3. Environment

Pros (Please select 5)

- [x] **Good quality green spaces & Landscaping** (improving biodiversity & wildlife)
- [x] **Update and improve existing sites**
- [x] **Better plot layouts & caravan siting** (More open space, landscape between plots, site shape to prevent overlooking, better plots views, more light and consideration of lifestyle)
- [x] **Productive landscape** (to grow food & space for wildlife/ animals on site i.e. Horses)
- [x] **Places to live that use good quality materials & Green technologies that will help reduce my energy costs** (Sustainability – using solar panels, air source heat pumps, high quality insulation)
- [x] **Better utilities on sites and storage** (waste, water, electricity etc)
- [ ] Other

*

6.

3. Environment

Con's (Please select 5)

- [x] Direct overlooking of plots and not enough space between neighbours
- [x] Fire safety and risk on site because of overcrowding
- [x] Poor site security and safety for children on site
- [x] Noise and isolation because of bad site locations
- [x] Health and Safety on site – impact of neighbouring site uses (pollution)
- [x] Poorly constructed plots and buildings on site that don't last
- [x] Too many caravans on site – Site density & over development
- [x] Not enough space for my family to grow
- [ ] Other

1.

1. Community, Culture & Heritage

Pros (Please select 5)

- [x] **Multi-generational living** (living with Grandparents, parents, kids, grand children)
- [ ] Other

*

2. 1. Community, Culture & Heritage

Con's (Please select 5)

- [x] **Loss of community through integration** (shared amenities with locals)
- [x] **Forced to live in unsuitable places**
- [x] **Less communal space on sites because it's neglected** (for example - more private amenity spaces needed)
- [x] **Poor quality/ Amenity buildings that don't suit our needs** (Outbuildings on site)
- [x] **Poor management and maintenance** (sites getting run down quickly)
- [x] **Lack of space for family or friends to stay**
- [ ] Other

*

3.

2. Connectivity and Land Use

Pros (Please select 5)

- [x] **Sites with nicer surroundings** – i.e. landscape, nice street, not next to scrap/ tip yards
- [x] **Site access** – i.e. more than one point of entry, more open boundary conditions using trees, better access for emergency vehicles etc.
- [x] **Having a right to buy** (ownership)
- [x] **More small-scale sites** – easier maintenance and site availability in different areas
- [ ] Other

*

4.

2. Connectivity and Land Use

- [x] **Poor access to Schools & Nurseries to improve employment opportunities**
- [x] **Overcrowding, oversized and unauthorised sites**
- [x] **Poor maintenance and responsibility of site management from local authority**
- [x] **Lack of planning engagement, opportunities and accountability from local authority**
- [ ] Other

*

5. 3. Environment

Pros (Please select 5)

- [x] **Sites that improve relationship with neighbours** (reflecting local character and respect G&T culture)
- [x] **Good quality green spaces & Landscaping** (improving biodiversity & wildlife)
- [x] **Update and improve existing sites**
- [x] **Better plot layouts & caravan siting** (More open space, landscape between plots, site shape to prevent overlooking, better plots views, more light and consideration of lifestyle)
- [x] **More shared communal space** (Playgrounds, area for sport and other uses)
- [x] **Better lighting and visibility at night**
- [x] **Car free zones & traffic calming measures around site** (improving air quality)
- [x] **Places to live that use good quality materials & Green technologies that will help reduce my energy costs** (Sustainability – using solar panels, air source heat pumps, high quality insulation)
- [x] **Better utilities on sites and storage** (waste, water, electricity etc)
- [ ] Other

*

6.

3. Environment

Con's (Please select 5)

- [x] Direct overlooking of plots and not enough space between neighbours
- [x] Fire safety and risk on site because of overcrowding
- [x] Not enough landscaping and too much car parking on site
- [x] Poor site security and safety for children on site
- [x] Noise and isolation because of bad site locations
- [x] Health and Safety on site – impact of neighbouring site uses (pollution)
- [x] Poorly constructed plots and buildings on site that don't last
- [x] Too many caravans on site – Site density & over development
- [ ] Other

1.

1. Community, Culture & Heritage

Pros (Please select 5)

- [x] **Multi-use space for community and local activities** – i.e. Shared Playgrounds & green areas
- [x] **Multi-generational living** (living with Grandparents, parents, kids, grand children)
- [x] **Live & places to work on site** (Self Employment and space to work separate from living)
- [x] **Teaching space** – i.e. different types of education – home schooling/ distance learning, community storytelling, apprenticeships etc.
- [x] **Accurate needs -based assessments** (by local authority for Gypsy & Travellers for selected sites)
- [ ] Other

*

2. 1. Community, Culture & Heritage

Con's (Please select 5)

- [x] **Loss of community through integration** (shared amenities with locals)
- [x] **Not being able to travel or have access to sites if I live in a house**
- [x] **Forced to live in unsuitable places**
- [x] **Poor quality/ Amenity buildings that don't suit our needs** (Outbuildings on site)
- [x] **Poor management and maintenance** (sites getting run down quickly)
- [x] **Lack of space for family or friends to stay**
- [x] **Homelessness because of not enough places to live**
- [x] **Lack of Gypsy & Traveller character and culture**
- [ ] Other

*

3.

2. Connectivity and Land Use

Pros (Please select 5)

- [x] **More available sites with better connections** – in towns, cities, countryside with better public transportation links
- [x] **Better access to health and education** (health & wellbeing)
- [x] **Sites with nicer surroundings** – i.e. landscape, nice street, not next to scrap/ tip yards
- [x] **Site access** – i.e. more than one point of entry, more open boundary conditions using trees, better access for emergency vehicles etc.
- [x] **Having a right to buy** (ownership)
- [x] **Plots and sites that can grow based on need** (allowing families to grow and stay, adaptable, community driven, reusing/re-planning existing sites, growing temporary sites to provide short term places to live)
- [x] **Different Options for G&T accommodation in each local authority** – Group Housing, serviced sites, transit sites, private sites, halting sites and stopping places
- [x] **Sites with plots and houses** (i.e. Sites that combine social housing and/ or caravan pitches that double up as holiday parks when not used)
- [x] **More small-scale sites** – easier maintenance and site availability in different areas
- [x] **Gypsy & Traveller designed sites should be included as a part of social housing in large scale developments**
- [ ] Other

*

4.

2. Connectivity and Land Use

Con's (Please select 5)

- [x] **Sites are hidden to outside world** (Visibility in local area)
- [x] **Environmental racism & surrounding Land Use** – i.e. Recycling and waste facilities, under motorways etc.
- [x] **Segregating site boundaries** - i.e. single entrance with high perimeter concrete walls that fence in sites
- [x] **Poor access to public transport and nearby amenities** - shops, sports clubs, restaurants etc
- [x] **Poor access to Schools & Nurseries to improve employment opportunities**
- [x] **Private ownership and not enough public owned sites**
- [x] **Poor maintenance and responsibility of site management from local authority**
- [x] **Increased living costs & Affordable accommodation**
- [ ] Other

*

5. 3. Environment

Pros (Please select 5)

- [x] **Sites that improve relationship with neighbours** (reflecting local character and respect G&T culture)
- [x] **Good quality green spaces & Landscaping** (improving biodiversity & wildlife)
- [x] **Update and improve existing sites**
- [x] **Better plot layouts & caravan siting** (More open space, landscape between plots, site shape to prevent overlooking, better plots views, more light and consideration of lifestyle)
- [x] **More shared communal space** (Playgrounds, area for sport and other uses)
- [x] **Better lighting and visibility at night**
- [x] **Productive landscape** (to grow food & space for wildlife/ animals on site i.e. Horses)
- [x] **Better utilities on sites and storage** (waste, water, electricity etc)
- [ ] Other

*

6.

3. Environment

Con's (Please select 5)

- [x] Direct overlooking of plots and not enough space between neighbours
- [x] Fire safety and risk on site because of overcrowding
- [x] Sites that experience heavy flooding or in places that are in flood plan
- [x] Not enough landscaping and too much car parking on site
- [x] Poor site security and safety for children on site
- [x] Noise and isolation because of bad site locations
- [x] Health and Safety on site – impact of neighbouring site uses (pollution)
- [x] Poorly constructed plots and buildings on site that don't last
- [x] Too many caravans on site – Site density & over development
- [x] Not enough space for my family to grow
- [ ] Other
